The information contained in this brochure does not constitute a legal interpretation of the laws or regulations of Québec or Canada. Nor does this brochure contain legislative amendments announced after October 31, 2013. You should therefore verify that the texts of the brochure reflect the latest fiscal legislation.

Our website contains online services and documents for employers.
Forms that are marked "Specimen" are provided for information purposes only, and are not to be used for any other purpose.

1 INTRODUCTION

1.1 Purpose of this brochure

This brochure is intended for employers who provide benefits to their employees. It deals with the most common benefits received by employees, indicating whether such benefits must be included in an employee's income and, if so, in which boxes of the employee's RL-1 slip the benefits must be entered.

The information in this brochure applies to benefits provided where an employer-employee relationship exists, but does not necessarily apply to benefits provided to a shareholder who is not an employee. (Such benefits are discussed only in cases where an RL-1 slip must be issued to the shareholder.) Therefore, you should not infer that a given benefit has no tax incidence for a shareholder just because there is no information in the brochure concerning the tax treatment that applies to that particular benefit paid to the shareholder because he or she is a shareholder. For information on a benefit paid to a shareholder, consult interpretation bulletin IMP. 111-1/R2.

For more information, consult our website or contact us.

1.2 Explanation of references

At the end of certain paragraphs, you will find references to sections of various laws and regulations, and to interpretation bulletins. Sections of the *Taxation Act* are referred to by a number only. References to the *Regulation respecting the Taxation Act* consist of the letter "R" preceded and followed by numbers (for example, 1086R17). All other references are abbreviations followed by section numbers. References that begin with the letters IMP. refer to interpretation bulletins.

1.3 Abbreviations used in this brochure

BDC	Biotechnology development centre
CCPC	Canadian-controlled private corporation
CNT	Commission des normes du travail
DPSP	Deferred profit-sharing plan
FMV	Fair market value
GST	Goods and services tax
HBP	Home Buyers' Plan
HST	Harmonized sales tax
IFC	International financial centre
LLP	Lifelong Learning Plan
QPIP	Québec parental insurance plan
QPP	Québec Pension Plan
QST	Québec sales tax
R&D	Scientific research and experimental development
RAMQ	Régie de l'assurance maladie du Québec
RCM	Regional county municipality
RPP	Registered pension plan
RRSP	Registered retirement savings plan
SMB	Small or medium-sized business
TFSA	Tax-free savings account
WSDRF	Workforce Skills Development and Recognition Fund

In this brochure, GST is also used to mean GST/HST.

2 PRINCIPAL CHANGES

Allowance for the use of a motor vehicle

On January 1, 2013, the per-kilometre rate for an allowance for the use of a motor vehicle that you pay an employee that we deem to be reasonable was increased from \$0.53 to \$0.54 for the first 5,000 kilometres and from \$0.47 to \$0.48, for each additional kilometre.

Operating costs benefit related to an automobile made available to an employee

If you pay operating costs for an automobile made available to an employee, you must include an operating-costs benefit in the employee's income. On January 1, 2013, the per-kilometre rate used to calculate that benefit was increased from \$0.26 to \$0.27. For employees engaged principally in selling or leasing automobiles, the per-kilometre rate has increased from \$0.23 to \$0.24.

3 GENERAL INFORMATION

As a rule, a benefit (including an allowance) received by an employee is taxable unless the *Taxation Act* states otherwise or unless, under certain conditions, a particular benefit is excluded from the calculation of the employee's income.

Parts 4 to 8 of this brochure describe the most common benefits (including allowances) received by employees. Part 9 indicates which benefits are subject to source deductions and employer contributions.

If you pay an allowance that **is not reasonable**, the **full** amount of the allowance is taxable and must be entered on the RL-1 slip. See the examples in sections 4.2, 7.4 and 7.5. However, if you pay an allowance or reimburse an amount that **exceeds a reasonable amount**, only the portion that exceeds the reasonable amount is taxable and must be entered on the RL-1 slip. (This rule does not apply if the allowance must be reasonable for the benefit to be tax-exempt.) See the examples in sections 7.1, 7.2 and 7.3. Note that benefits that are normally tax-exempt may be considered taxable if they prove to be a disguised form of remuneration.

When you include a taxable benefit in an employee's income, be sure to include the GST and QST that the employee would have paid if he or she had personally purchased the property or service that constitutes this benefit. However, do not add GST and QST to a taxable allowance or to any other taxable cash benefit. For more information, consult the brochure *General Information Concerning the QST and the GST/HST* (IN-203-V).

Expense allowance and expense reimbursement

The terms "expense allowance" and "expense reimbursement," used frequently in this brochure, are defined below.

Expense allowance

A predetermined amount paid to an employee, in addition to his or her salary or wages, that may cover all or only some of the expenses stipulated in the employment contract. The employee is not required to account for its use.

Notes

- The allowance does not necessarily correspond to the amount of expenses incurred by the employee, nor do the expenses which the allowance is intended to cover necessarily correspond to the expenses actually incurred.
- Whatever their purpose, expense allowances must be included in the employee's income unless the *Taxation Act* states otherwise.

Expense reimbursement

An amount paid to an employee on proof that the expenses were actually incurred.

Notes

- The expenses incurred always correspond exactly to the amount reimbursed, since a reimbursement is made after the expenses are incurred.
- An expense reimbursement does not have to be included in the employee's income unless it covers personal expenses and cannot be excluded from the calculation of the employee's income under the *Taxation Act*.

IMP. 37-9/R2

4 MOTOR VEHICLES

The table below indicates whether the use of a motor vehicle made available to an employee constitutes a taxable benefit and, if so, in which box(es) of the RL-1 slip the benefit must be entered.

The number after each benefit refers to the section of this part that deals with the benefit.

Benefit provided by the employer	Taxable benefit	Corresponding boxes of the RL-1 slip
Allowance for the use of a motor vehicle (4.2)	No, if the allowance is reasonable	Boxes A and L, if the allowance is not reasonable
Automobile made available by a partnership to an employee of a partner (or to a person related to that employee) (4.3.4)	Yes	<ul style="list-style-type: none"> • Box O of the employee's RL-1 slip for the standby charge • Boxes A and W of the employee's RL-1 slip for the operating-costs benefit
Automobile made available to a partner (or to a person related to a partner) (4.3.3)	Yes (standby charge only)	Box O (code RP) of the partner's RL-1 slip
Automobile made available to a shareholder (or to a person related to a shareholder) (4.3.2)	Yes	<ul style="list-style-type: none"> • Box O (code RO) of the shareholder's RL-1 slip • Boxes A and W, if the benefit is provided to the shareholder as an employee of the corporation, rather than as a shareholder
Automobile made available to an employee (or to a person related to an employee) (4.3.1)	Yes	Boxes A and W of the employee's RL-1 slip
Automobile used by an employee for personal purposes, other than an automobile made available to the employee by the employer (4.4)	Yes	Boxes A and W
Emergency vehicle made available to a member of a police force or fire department (4.6)	No, if the conditions are met	Boxes A and W, if the conditions are not met
Motor vehicle, other than an automobile, that an employee uses for personal purposes (4.5)	Yes	Boxes A and W

Motor vehicle

An automotive vehicle designed or adapted to be used on highways and streets, other than a trolley bus or a vehicle designed or adapted to be operated exclusively on rails.

Automobile

A motor vehicle that is designed or adapted primarily to carry individuals on highways and streets and that seats no more than nine persons, including the driver. However, the term “automobile” does not include

- ambulances;
- clearly marked emergency medical response vehicles used by individuals to carry out their duties with an emergency medical response or ambulance service, and to carry emergency medical equipment together with one or more emergency medical attendants or paramedics;
- motor vehicles acquired or leased primarily to provide taxi services;
- buses used in a passenger transportation business;
- hearses used in a funeral home business;
- pickup trucks, vans or similar vehicles that, in the taxation year they are acquired or leased,
 - are used primarily (more than 50%) to transport goods or equipment in order to gain income, and seat no more than three persons, including the driver, or
 - are used entirely or almost entirely (90% or more) to transport goods, equipment or passengers in order to gain income, regardless of seating capacity;
- pickup trucks, if the following conditions are met:
 - in the year it is acquired or leased, the pickup truck is used primarily to transport goods, equipment or passengers in order to gain income at a location in Canada;
 - at least one occupant of the vehicle works at a special work site where he or she performs temporary duties or at a location so remote from any established community that he or she cannot establish or maintain a dwelling there; and
 - the special work site or remote location is 30 kilometres or more from an urban area of at least 40,000 inhabitants.

Where the benefit related to the personal use of a motor vehicle is not provided to an individual by reason of his or her office or employment, the following vehicles are also excluded from the definition of the term “automobile”:

- motor vehicles acquired or leased to be sold or leased in the course of carrying on a business of selling or leasing motor vehicles;
- motor vehicles used by a funeral home business to transport passengers.

1

4.1 Specific information

The following information will help you in calculating a benefit related to the use of a motor vehicle.

Automobile made available to an employee

We consider that you make an automobile available to an employee where you entrust the automobile to the care and control of the employee, and authorize the employee to make personal use of the automobile or do not forbid such use. If the employee uses the automobile for work only, there is no taxable benefit even though the vehicle is available to the employee throughout the year. A taxable benefit results if the employee uses the automobile for personal purposes, or if the automobile made available to the employee is not required for his or her job.

Personal use of an automobile

“Personal use” of an automobile by an employee (or by a person related to the employee) means any non-business use of the automobile. We consider the use of an employer’s automobile by an employee to travel between home and the workplace to be personal use of the automobile, even if the employee is required to return to work after regular hours.

However, if you ask or allow an employee (such as a travelling sales representative) to go directly from home to a place other than his or her usual workplace (or to return home from such a place), the employee is not considered to be using the automobile for personal purposes.

Automobile operating costs

Automobile operating costs include, for example, the cost of maintenance, repairs (minus any insurance proceeds), oil, fuel, insurance and registration. They do not include interest, capital cost allowance, leasing costs or parking fees.

Automobile leasing expenses

For the purpose of calculating the standby charge, automobile leasing expenses (variable E of the formula in section 4.3.1.1) correspond to the total amount payable to the lessor for the automobile, including GST, QST, charges related to kilometres travelled, maintenance and repair costs, and terminal charges (amounts charged at the end of the lease), **minus** terminal credits (amounts credited at the end of the lease).

Leasing expenses do not include any amount paid as a penalty upon cancellation of the lease, unless the penalty is determined solely on the basis of the resale value of the automobile at the time of cancellation or is derived solely from an adjustment in the leasing price.

If there are any terminal charges or credits, the employee may ask us to adjust the value, over the term of the lease, of the taxable benefit resulting from the lease payments, provided the years covered are not statute-barred.

If a lease payment you make at the beginning of the lease reduces the monthly lease payments, you must, when calculating the standby charge, divide the initial payment by the number of months in the lease and add that amount to each monthly payment over the term of the lease. This initial payment must be a lease payment, however, and not a payment for the purchase of the automobile.

4.2 Allowance for the use of a motor vehicle

An allowance received by an employee for the use of a motor vehicle is considered **reasonable**, and does not have to be included on the RL-1 slip, if all of the following three conditions are met:

- The measurement of the employee's use of the vehicle for the purpose of determining the allowance is based solely on the actual number of kilometres the vehicle is used by the employee in the performance of his or her duties (see section 4.3.1.3).
- The per-kilometre rate is reasonable.
- You do not pay an allowance and also reimburse the employee for some or all of the expenses related to the use of the vehicle. However, if the reimbursement is solely for supplementary business insurance, tolls or ferry charges not covered by the allowance, the allowance is considered reasonable, provided the two conditions above are met.

As a rule, we consider that a per-kilometre rate is reasonable if it does not exceed the rate that an employer subject to income tax is authorized to deduct under Québec tax laws and regulations. For 2013, the per-kilometre rate is \$0.54 for the first 5,000 kilometres and \$0.48 for each additional kilometre. Please note

that the type of vehicle and the driving conditions may also be taken into consideration in determining whether a given rate is reasonable. A rate that does not cover the expenses incurred by the employee is not considered reasonable.

If an allowance for the use of a motor vehicle is **not reasonable**, the **full** amount of that allowance must be included in boxes A and L of the RL-1 slip. The employee may, however, claim a deduction in his or her income tax return for expenses related to the use of his or her motor vehicle, provided the requirements of the *Taxation Act* are met. To claim the deduction, the employee must have you sign a copy of form TP-64.3-V, *General Employment Conditions*, or, in the case of a forestry worker, form TP-78-V, *Employment Expenses of Forestry Workers*, to certify that the general conditions of employment have been met. The form must be enclosed with the employee's income tax return.

Lump-sum allowance combined with a reasonable per-kilometre allowance

Where the employee receives, for the use of the same motor vehicle, both a lump-sum allowance and an allowance based on the actual number of kilometres travelled by the automobile, you must include both allowances in boxes A and L of the RL-1 slip.

37, 40.1, IMP. 40-1/R3 (except point 9)

4.3 Benefit related to an automobile made available to an employee, shareholder or partner, or to a person related to one of these persons

This section describes the steps and special rules that apply to the calculation of the benefit related to an automobile made available to an employee, a shareholder, a partner, or an employee of a partner, or to a person related to one of these persons. To determine the value of the benefit, you can use work chart TP-41.C-V, *Calculation of an Automobile Benefit*, which is available on our website.

37, 38, 41 to 41.4, 87, 111, 117, IMP. 37-6/R1, IMP. 37-7/R3, IMP. 41-1/R8, IMP. 41.1.1-1/R2

4.3.1 Employee

The value of the benefit related to an automobile that you or a person related to you makes available to an employee or to a person related to an employee is calculated in two steps. The first step involves calculating the value of the standby charge for the automobile; the second step involves calculating the value of the operating-costs benefit you pay. To do this calculation, you may use the instructions in this section or work chart TP-41.C-V. The value of the benefit must be included in boxes A and W of the employee's RL-1 slip.

Note

Since the value of the benefit must be calculated over the course of the year, it is necessarily based on estimates. You must therefore repeat the calculation at the end of the year, using the actual number of kilometres travelled during the taxation year.

4.3.1.1 Step 1: Calculating the value of the standby charge

Calculate the value of the standby charge as follows:

$$A \times [2\% \times (C \times D) + 2/3 \times (E - F)]$$

B

where

A = the lesser of

- the total number of kilometres travelled by the employee for personal purposes during the period in which the automobile is made available for his or her use (the number is deemed to be equal to variable B, unless you require the employee to use the automobile to perform his or her duties, and the employee uses the automobile primarily (more than 50%) for this purpose), and
- the value of variable B;

$$B = 1,667 \times \frac{\text{total number of days (during the year) that the automobile is made available to the employee}}{30}$$

Note

If the result of the division of the number of days by 30 is not a whole number and is greater than 1, round it off to the nearest whole number. If less than one, do not round off. For example, 7.5 is rounded off to 7 and 7.6 is rounded off to 8, whereas 0.63 must not be rounded off.

C = the cost of the automobile to you (or to a person related to you);

D = the number of days that the automobile is made available to the employee while it is owned by you (or a person related to you), divided by 30, then round off to the nearest whole number (see the note above);

E = the leasing expenses payable by you (or a person related to you) during the period in which the automobile is made available to the employee (period covered by variable D); and

F = the amount included in variable E that corresponds to the cost of insuring against loss of, or damage to, the automobile or liability resulting from the use or operation of the automobile.

GST and QST

When determining the value of variables C, E and F, include any tax that is payable by you (or a person related to you), or that would be payable were it not for the exemption granted by reason of your employer status or the particular use of the automobile. For more information, consult the brochure *General Information Concerning the QST and GST/HST* (IN-203-V).

Amounts reimbursed by the employee

Any amounts that the employee (or a person related to the employee) pays to you (or pays to a person related to you) in the year for the use of the automobile, other than operating costs (see step 2), must be subtracted from the reasonable amount corresponding to the standby charge. If the amounts paid exceed the reasonable amount, you may not use the difference to reduce the operating-costs benefit.

Automobile vendor or leasing agent

You may choose to calculate the standby charge **at the rate of 1.5% rather than 2%**, provided

- the employee is engaged **principally** in selling or leasing automobiles;
- you make an automobile that you own available to the employee (or to a person related to the employee); and
- you acquire at least one automobile in the year.

In this case, the cost of the automobile (variable C) corresponds to the greater of the following amounts:

- the average cost of all new automobiles you acquire in the year for sale or lease;
- the average cost of all automobiles (new and used) you acquire in the year for sale or lease.

GST and QST must be included in the average cost.

41 to 41.0.2

4.3.1.2 Step 2: Calculating the operating-costs benefit

If you or a person related to you pays expenses related to the personal use of an automobile made available to an employee or to a person related to the employee, you must include an operating-costs benefit in the employee's income. For 2013, the operating-costs benefit is \$0.27 per kilometre, or \$0.24 per kilometre for employees engaged principally in selling or leasing automobiles. The limits and rates used to calculate deductible expenses and taxable benefits relative to the use of an automobile are published on our website.

Simplified method

You may use the simplified method if both of the following conditions are met:

- The employee uses the automobile primarily (**more than 50%**) in the performance of his or her duties.
- The employee notifies you in writing, before the end of the year, of his or her intention to use the simplified method to calculate the operating-costs benefit.

Under this method, the operating-costs benefit equals **one-half of the reasonable amount corresponding to the standby charge**, as calculated in step 1, **before the deduction of any amounts reimbursed by the employee for the standby charge.**

Amounts reimbursed by the employee

If, in the year or within 45 days after the end of the year, the employee (or a person related to the employee) reimburses you (or a person related to you) for all the automobile operating costs (including taxes) for the year concerned, the employee receives no taxable benefit. If only a portion of these costs is reimbursed, subtract the amount reimbursed from the employee's operating-costs benefit.

41.1.1

4.3.1.3 Logbook

If you or a person related to you makes an automobile available to an employee or to a person related to the employee, the employee must keep a logbook of the trips made with the automobile and give you a copy of the logbook no later than

- January 10, 2014, if the automobile was available to the employee on December 31, 2013; or
- the 10th day following the day on which the automobile is returned to you (or to a person related to you).

The employee must enter the following information in the logbook:

- the total number of days that the automobile was made available to the employee (or to a person related to the employee) during the year;
- on a daily, weekly or monthly basis, the total number of kilometres travelled during the number of days referred to above.

The employee must also enter, on a daily basis, for each trip made to perform his or her duties, the following information:

- the place of departure and the place of destination;
- the number of kilometres travelled between those two places; and
- any information necessary to establish that the trip is made by the employee to perform his or her duties.

Note

If the automobile is used solely for personal purposes, the employee must instead enter the following information in the logbook:

- the total number of days that the automobile is made available to the employee (or to a person related to the employee) during the year; and
- the kilometres registered on the odometer at the beginning and end of the year or of each period during which the automobile is made available, on a continuous basis, to the employee (or to a person related to the employee).

Penalty

An employee incurs a penalty of \$200 if he or she fails, within the time specified, to give you a copy of the logbook of the trips made using an automobile made available to the employee (or to a person related to the employee).

41.1.4, 41.1.5, 1049.34

4.3.2 Shareholder

If you make an automobile available to a shareholder (or to a person related to a shareholder) and the shareholder is not an employee, calculate the standby charge and the operating-costs benefit as you would for an employee (see section 4.3.1), and include these amounts in box O of the shareholder's RL-1 slip and enter RO in the "Code (case O)" box.

If, however, these benefits are provided to the shareholder because of the shareholder's office or employment with the corporation, enter these benefits in boxes A and W of the shareholder's RL-1 slip.

4.3.3 Partner

If you make an automobile available to a partner (or to a person related to a partner), calculate only the standby charge using the formula in step 1 of section 4.3.1.1 or of work chart TP-41.C-V. **The operating-costs benefit does not apply in the case of a partner.** The partnership must file an RL-1 slip for the partner and include the value of the benefit in box O of the slip and enter RP in the "Code (case O)" box.

4.3.4 Employee of a partner

Where a partnership makes an automobile available to a partner's employee (or to a person related to the employee), the standby charge is calculated using the formula in step 1 of section 4.3.1.1 or of work chart TP-41.C-V.

The value of the employee's operating-costs benefit corresponds to the total amount of expenses (including taxes) related to the personal use of the automobile, which are paid by the partnership for the year. Any amount that the employee (or a person related to the employee) reimburses to the partnership is subtracted from the employee's operating-costs benefit.

The value of the operating-costs benefit must be included in boxes A and W of the employee's RL-1 slip; the standby charge must be included in box O.

4.3.5 Sample calculations of the benefit related to an automobile

The calculations below are valid for 2013.

Example 1	
Basic data (according to the information in the logbook)	
Cost of the automobile, including taxes	\$23,000
Number of days (during the year) that the automobile is made available to the employee	365
Total kilometres travelled during the period	25,000 km
Total kilometres travelled for personal purposes	15,000 km
Percentage of use for employment purposes: $\frac{(25,000 - 15,000)}{25,000} \times 100 =$	40%
Total operating costs for the automobile, including taxes	\$3,000
Operating costs related to personal use: $\$3,000 \times \frac{15,000 \text{ km}}{25,000 \text{ km}} =$	\$1,800
Portion of the operating costs reimbursed by the employee in the year or within 45 days after the end of the year	\$1,000
Amount reimbursed in the year by the employee for the standby charge	\$2,000

Calculation of the standby charge

$$\frac{A}{B} \times [2\% \times (C \times D) + 2/3 \times (E - F)],$$

B

where

$$A = B \text{ (since the percentage of use for an office or employment is 50\% or less);}$$

$$B = 1,667 \times \frac{365}{30} = 1,667 \times 12 = 20,004;$$

$$C = \$23,000;$$

$$D = \frac{365}{30} = 12; \text{ and}$$

E and F = 0.

$\frac{20,004}{20,004} \times [2\% \times (\$23,000 \times 12)] =$	\$5,520
--	---------

Minus: Amount reimbursed by the employee	–	\$2,000
	=	\$3,520

Calculation of the operating-costs benefit (see the note)

15,000 km x \$0.27 =	\$4,050	
Minus: Amount reimbursed by the employee	–	\$1,000
	=	\$3,050
Total taxable benefit	=	\$6,570

Note

The simplified method cannot be used to calculate the operating-costs benefit because the automobile is not used primarily (more than 50%) for the purposes of an office or employment.

**Example 2****Basic data** (according to the information in the logbook)

Monthly leasing costs, including taxes	\$500
Monthly insurance premiums included in leasing costs	\$75
Number of days (during the year) that the automobile is made available to the employee	365
Total kilometres travelled during the period	20,000 km
Total kilometres travelled for personal purposes	5,000 km
Percentage of use for employment purposes: $\frac{(20,000 - 5,000)}{20,000} \times 100 =$	75%
Total operating costs for the automobile, including taxes	\$2,400
Operating costs related to personal use: $\$2,400 \times \frac{5,000 \text{ km}}{20,000 \text{ km}} =$	\$600
Portion of the operating costs reimbursed by the employee in the year or within 45 days after the end of the year	\$200

The automobile is leased by the employer and is used more than 50% for the purposes of an office or employment.

Calculation of the standby charge

$$\frac{A}{B} \times [2\% \times (C \times D) + 2/3 \times (E - F)],$$

where

A = the lesser of

- 5,000 km (personal use), and
- variable B (20,004);

$$B = 1,667 \times \frac{365}{30} = 1,667 \times 12 = 20,004;$$

C and D = 0;

E = \$500 x 12 months = \$6,000; and

F = \$75 x 12 months = \$900.

$\frac{5,000}{20,004} \times [2/3 \times (\$6,000 - \$900)] =$	\$849.83
--	----------

Calculation of the operating-costs benefit

If, before the end of the year, the employee notifies the employer in writing of his or her intention to use the simplified method, the operating-costs benefit is equal to one-half of the value of the standby charge, that is,

$1/2 \times \$849.83 =$	\$424.92	
Minus: Amount reimbursed by the employee	– \$200.00	
	$= \$224.92$	+ \$224.92
Total taxable benefit	$=$	\$1,074.75

Note

It is to the employee's advantage to use the simplified method to calculate the operating-costs benefit rather than multiplying the number of personal-use kilometres by \$0.27 (5,000 km x \$0.27 = \$1,350). The employee is entitled to choose the simplified method because the automobile is used primarily (more than 50%) for the purposes of an office or employment.

Example 3**Basic data** (according to the information in the logbook)

	Total cost	Average cost
3 new automobiles acquired in the year	\$60,000	\$20,000
147 used automobiles acquired in the year	\$1,500,000	\$10,204
150 automobiles acquired in the year	\$1,560,000	\$10,400

Taxes are included in the average cost and the total cost.

Number of days (during the year) that the automobile is made available to the employee	365
Total kilometres travelled during the period	21,000 km
Total kilometres travelled for personal purposes	11,000 km
Percentage of use for employment purposes: $\frac{(21,000 - 11,000)}{21,000} \times 100 =$	48%
Total operating costs for the automobile, including taxes	\$5,000
Operating costs related to personal use: $\$5,000 \times \frac{11,000 \text{ km}}{21,000 \text{ km}} =$	\$2,619.05
Portion of the operating costs reimbursed by the employee in the year or within 45 days after the end of the year	\$1,000

The automobile is owned by the employer and the employee is an automobile vendor.

Calculation of the standby charge

$$\frac{A}{B} \times [1.5\% \times (C \times D) + 2/3 \times (E - F)],$$

B

where

A = B (since the percentage of use for an office or employment is 50% or less);

$$B = 1,667 \times \frac{365}{30} = 1,667 \times 12 = 20,004;$$

C = the greater of

- the average cost of the new automobiles acquired for sale or lease during the year, including taxes (\$20,000), and
- the average cost of all automobiles (new and used) acquired for sale or lease during the year, including taxes (\$10,400);

$$D = \frac{365}{30} = 12; \text{ and}$$

E and F = 0.

$\frac{20,004}{20,004} \times [1.5\% \times (\$20,000 \times 12)] =$	\$3,600
--	---------

Calculation of the operating-costs benefit (see the note)

11,000 km x \$0.24 =	\$2,640		
Minus: Amount reimbursed by the employee	– \$1,000		
	= \$1,640	+	\$1,640
Total taxable benefit	=		\$5,240

Note

The simplified method cannot be used to calculate the operating-costs benefit because the automobile is not used primarily (more than 50%) for the purposes of an office or employment.

4.4 Benefit related to an employee's personal use of an automobile, other than an automobile made available to the employee by the employer

If you or a person related to you does not make an automobile available to an employee or to a person related to the employee, but you or a person related to you does pay expenses related to the personal use of another automobile, you must calculate the resulting benefit received by the employee for the personal use of that automobile. This benefit corresponds to the automobile operating costs (including taxes) related to the personal use of the automobile, which are paid on behalf of the employee. Any amount reimbursed by the employee (or by a person related to the employee) must be subtracted from the value of the employee's operating-costs benefit.

41.1.2

The terms "automobile made available to an employee" and "automobile operating costs" are explained in section 4.1.

4.5 Benefit related to an employee's personal use of a motor vehicle, other than an automobile, made available to the employee by the employer

If you make a motor vehicle, **other than an automobile** (such as an ambulance, pickup truck, van or bus), available for **the personal use of an employee**, you must calculate the employee's benefit. The value of the benefit corresponds to the FMV of the actual benefit, and must include all amounts that the employee would normally have had to pay for a comparable vehicle in an arm's-length transaction, such as leasing expenses and operating costs (explained in section 4.1).

If you make a motor vehicle, other than an automobile, available for the personal use of a **shareholder** who is not an employee, the resulting benefit is calculated in the same manner.

If the vehicle is essential to the operation of your business and the only personal use made of it by the employee is to travel between home and the workplace, you may calculate the employee's benefit on the basis of a per-kilometre rate used for equivalent transportation. Revenu Québec considers a benefit calculated at the rate of \$0.27 per kilometre to be reasonable, provided **all four of the following conditions** are met:

- The motor vehicle is not an automobile, as defined in Part 4.
- You notify your employee in writing that the **only** personal use the employee may make of the vehicle is to travel between home and the workplace. Your employee must keep a logbook in which all the vehicle's trips are recorded, as proof that no other personal use is made of the vehicle.
- For valid business reasons, you require that your employee drive the vehicle home in the evening. For example,
 - tools and equipment cannot be safely left overnight at the work site or place of business, or
 - your employee is on call for emergencies and the motor vehicle is provided to reduce the emergency response time (see the note below).
- The motor vehicle is specially **designed or equipped** to meet the needs of your business or trade, and is **essential** for the employee to carry out his or her duties. (The employee's use of the vehicle to travel between home and the workplace does not,

by itself, mean that the vehicle is “essential for the employee to carry out his or her duties.”) Those two requirements are met in the following examples:

- The vehicle is specially designed (or has been significantly modified) to transport tools, equipment or goods.
- The vehicle (a van or pickup truck) is permanently equipped and used for transporting and storing heavy, bulky or numerous tools or pieces of equipment, and it would be difficult to load and unload the contents of the vehicle.
- The vehicle is used, on a regular basis, to transport harmful or foul-smelling materials (such as veterinary samples or fish and game).
- Your employee is on call for emergencies (see the note below) and requires
 - a clearly marked emergency vehicle,
 - a vehicle specially equipped for responding to emergencies, or
 - a vehicle designed to transport specialized equipment to the scene of an emergency.

For purposes of calculating the benefit, an employee who uses any such vehicle to travel between home and the scene of an emergency is not considered to be making personal use of the vehicle.

Note

Typically, any situation in which the health and safety of the general public may be affected or in which the employer’s activities are significantly disrupted may be considered an emergency.

133.2.1, IMP. 37-6/R1

4.6 Emergency vehicle made available to a member of a police force or fire department

If you or a person related to you makes an emergency vehicle available to an employee who is a member of a police force or fire department, the employee receives no taxable benefit if the following conditions are met:

- A written directive limits the personal use of the vehicle and specifies that the vehicle must be returned to you in the event of an extended absence.
- The vehicle **is clearly identified with your name or has special equipment** allowing for prompt intervention in the case of events concerning public safety.

If these conditions are not met and the vehicle made available to the employee is an automobile, as defined in Part 4, you must calculate the value of the benefit as you would for an automobile (see section 4.3). However, if the vehicle is not an automobile, see section 4.5.

41.1.3

5 CONTRIBUTIONS (OR PREMIUMS) PAID TO INSURANCE PLANS

The table below indicates whether insurance plan contributions (or premiums) you pay on behalf of an employee constitute a taxable benefit and, if so, in which boxes of the RL-1 slip the benefit must be entered.

The number after each type of plan refers to the section of this part that deals with the contributions (or premiums) paid by you under that type of plan.

Type of insurance plan	Taxable benefit	Corresponding boxes of the RL-1 slip
Group insurance plan (other than a multi-employer insurance plan) [5.1]	Yes, except for: <ul style="list-style-type: none"> a group insurance plan providing coverage for total or partial loss of income from an office or employment (if wage loss benefits are payable periodically) contributions paid for the benefit of the surviving spouse of a deceased employee 	<ul style="list-style-type: none"> Boxes A and J in the case of a private health services plan (see the definition on the next page) Boxes A and L in all other cases
Multi-employer insurance plan (contributions paid by the employer to the administrator of the plan) [5.3]	Yes	Boxes A and P
Non-group insurance plan (5.2)	Yes	Boxes A and L
Top-up disability payments under an insurance plan funded solely by employee contributions (5.4)	No	Not applicable

Private health services plan

A medical care insurance plan or hospital care insurance plan (or both) or a contract of insurance in respect of medical expenses, hospital expenses or any combination of such expenses, provided the plan or contract

- covers only services or expenses that qualify for the non-refundable tax credit for medical expenses; or
- essentially covers services or expenses that qualify for the non-refundable tax credit for medical expenses, and substantially all of the premium or any other consideration payable for the coverage provided is attributable to the above-mentioned expenses.

A private health services plan does not include a plan or contract established by or pursuant to a law of a province that, in accordance with fiscal agreements, receives contributions from the federal government for health services provided under the plan or contract.

Notes

- This definition includes **group insurance plans** that cover such services or such medical expenses, as well as contracts and plans that provide full or partial coverage of dental expenses or expenses incurred for vision care.
- To qualify as a private health services plan, a plan must provide that, for an agreed consideration, a person is to indemnify another person for a loss or liability in respect of an event that may or may not occur. If an employer has made an arrangement to reimburse employees for expenses they or their dependants incur for medical, hospital or dental care, this arrangement may qualify as a private health services plan.

1

5.1 Contributions paid by the employer under a group insurance plan (including a private health services plan)

The contributions you pay under one of the following group insurance plans for the coverage that a **current, past or future** employee (hereinafter referred to as an “employee”) receives during the year constitute a taxable benefit for the employee:

- a private health services plan;
- a group life insurance plan (term or other);
- all other group insurance plans, except plans covering total or partial loss of income from an office or employment (if wage loss benefits are payable periodically).

37.0.1.1 to 37.0.1.6, 38

Contributions (or premiums) paid by the employee to a private health services plan

The contributions (or premiums) paid by a current, past or retired employee to a private health services plan that covers, for example, medical or dental costs, do not constitute a taxable benefit for the employee. However, the amount paid may give the employee entitlement to a tax credit for medical expenses. To indicate on the RL-1 slip the amounts that the employee paid to such a plan, enter 235 in a blank box, followed by the amount. This entry is optional. However, if you do not enter it on the RL-1 slip, the employee could ask you for supporting documents. Do not include this amount in box A.

Group critical illness insurance

The premium you pay under a group critical illness insurance plan (for conditions such as coma, cancer or paralysis) for the employee’s coverage for the year constitutes a taxable benefit for the employee. This benefit must be reported in boxes A and L of the RL-1 slip.

5.1.1 Plan backed by an insurance contract

If the group insurance plan provides coverage backed by an insurance contract with an insurance corporation, the taxable benefit related to this coverage is equal to the result of the following calculation:

- the premium and the related tax of 9% paid for the employee’s **coverage** (such as individual, family or single-parent coverage) and **benefits** (such as medical, hospital or dental expenses) for the year (see section 5.1.3 if this is a private health services plan);

minus

- the total of the following amounts:
 - the amount reimbursed by the employee during the year; and
 - the dividends, returns or refunds of premiums you received during the year with respect to the employee’s coverage and benefits.

Dividends, returns or refunds of premiums

If you receive an amount during the year as a dividend, return or refund of premiums (hereinafter referred to as a “refund”) that is determined on the basis of all the types of benefits and coverage provided under the plan, the portion of the refund

(including the reimbursement of the related tax) that reduces the value of the benefit provided to a given employee is equal to the result of the following calculation:

Refunds you receive (except for the employees' share in the cost of the plan, where this share is distributed to the employees during the year)	X	$\frac{\text{Premium paid for the employee}}{\text{Premiums paid for all employees}}$
---	---	---

If the refund is determined **only on the basis of certain types of benefits or coverage provided under the plan**, the taxable benefit is reduced only for those employees who have the types of benefits or coverage on which the refund is calculated. The portion of the refund (including the reimbursement of the related tax) attributable to a given employee is equal to the result of the following calculation:

Refunds you receive (except for the employees' share in the cost of the plan, where this share is distributed to the employees during the year)	X	$\frac{\text{Premium paid for the employee's benefits and coverage}}{\text{Premiums paid for all employees that have the same types of benefits and coverage as the employee}}$
---	---	---

If you remit to an employee the portion of the refund that corresponds to his or her share in the cost of the plan, do not enter on the RL-1 slip the amount received by the employee. However, in the case of a private health services plan, this amount reduces the total amount of the premiums (paid by the employee to the plan) that gives entitlement to the tax credit for medical expenses.

If you remit to an employee the portion of the refund that corresponds to **your share in the cost of the plan**, you must include that amount in boxes A and L of the employee's RL-1 slip.

5.1.2 Plan not backed by an insurance contract

If the group insurance plan (usually administered by an insurance corporation) provides coverage that is not backed by an insurance contract with an insurance corporation, the taxable benefit related to the coverage is equal to the result of the following calculation: the value of an employee's coverage **minus** the total contribution paid by the employee to the plan during the year. Use the following formula to calculate the value of the employee's coverage:

$$\frac{(A \times B)}{C} + \frac{(D \times E)}{F}$$

where

- A = the total amount of benefits (including the related tax) paid in the year to all employees who have the same types of coverage and benefits as the employee (see section 5.1.3 if this is a private health services plan);
- B = the number of days (during the year) that the employee has the coverage and benefits concerned;
- C = the number of employee-days of coverage (that is, the total number of employees who have the types of coverage and benefits concerned, for each day in the year);
- D = expenses, except those associated with establishing or modifying the plan (including any related tax) incurred with respect to a third party, for the administration or management of the plan for the year;
- E = the number of days (during the year) that the employee is covered under the plan; and
- F = the number of employee-days of coverage under the plan (that is, the total number of employees covered by the plan, for each day in the year).

If different types of coverage (such as individual, family or single-parent coverage) or optional benefits (such as medical, hospital or dental expenses) are provided under a plan, and the employees covered by the plan do not all have the same types of coverage or benefits, you must apply the formula $(A \times B) / C$ to each type of benefit the employee has.

**Example**

A corporation's private health services plan offers two types of coverage – individual and family – to its four employees as well as two types of benefits—basic health insurance and dental expenses.

	Family coverage				Individual coverage				Number of days (E)
	Medical expenses		Dental expenses		Medical expenses		Dental expenses		
	Contributions	Number of days (B)	Contributions	Number of days (B)	Contributions	Number of days (B)	Contributions	Number of days (B)	
Audrey	\$1,000	365	\$1,400	365					365
David	\$1,200	365	\$0	365					365
Kim					\$600	183	\$800	183	183
Thomas					\$700	365			365
Total contributions (A)	\$2,200		\$1,400		\$1,300		\$800		
Number of employee-days (C)		730		730		548		183	
Number of employee-days (F)									1,278
Administrative costs (D)	\$1,000								

You must use the following formula to calculate the value of the employee's coverage: $(A \times B)/C + (D \times E)/F$

You must apply the formula $(A \times B)/C$ to each type of benefit the employee has.

		Medical expenses $\frac{(A \times B)}{C}$		Dental expenses $\frac{(A \times B)}{C}$		Administrative costs $\frac{(D \times E)}{F}$	=	Value of the coverage
Family coverage	Audrey	$\frac{(\$2,200 \times 365)}{730}$	+	$\frac{(\$1,400 \times 365)}{730}$	+	$\frac{(\$1,000 \times 365)}{1,278}$	=	\$2,085.60
	David	$\frac{(\$2,200 \times 365)}{730}$	+	$\frac{(\$1,400 \times 365)}{730}$	+	$\frac{(\$1,000 \times 365)}{1,278}$	=	\$2,085.60
Individual coverage	Kim	$\frac{(\$1,300 \times 183)}{548}$	+	$\frac{(\$800 \times 183)}{183}$	+	$\frac{(\$1,000 \times 183)}{1,278}$	=	\$1,377.32
	Thomas	$\frac{(\$1,300 \times 365)}{548}$	+	N/A	+	$\frac{(\$1,000 \times 365)}{1,278}$	=	\$1,151.48

In determining the value of an employee's coverage under a plan that does not distinguish between the types of coverage and benefits it provides, you cannot break down the amount of benefits paid by the plan according to the employees who do or do not have family coverage, or those who are or are not reimbursed for certain types of expenses.

Note

Since the value of the taxable benefit must be distributed over all of the pay periods, the value of the coverage provided to an employee is necessarily based on estimates. Any reasonable estimation method may be used (for example, the estimates may be based on data for the previous year or on a hypothetical premium). At the end of the year, however, you must calculate the value of the benefit on the basis of the actual data.

Group insurance plan covering employees subject to different legislation (variables A, C, D and F)

If a group insurance plan provides identical coverage to employees subject to different legislation (that is, Québec legislation and legislation in effect elsewhere), you may use one of the two methods explained below to calculate the benefit received by your employees subject to Québec legislation.

You must choose the method that best reflects the coverage provided to these employees.

Method A: The value of an employee's coverage is calculated on the basis of the actual data for all employees covered under the plan. (Method A is the standard method.)

Method B: The value of an employee's coverage is calculated on the basis of the actual data for the employees subject to Québec legislation only.

Employee subject to Québec legislation

An employee

- who reports for work at one of the employer's establishments in Québec; or
- who is not required to report for work at one of the employer's establishments in Québec, but who receives his or her remuneration or fringe benefits from such an establishment.

Example

Under a corporation's private health services plan, the three employees of the corporation who are subject to Québec legislation receive the same coverage as the 200 employees who report for work at one of the corporation's establishments in Ontario. If no benefit is paid to the employees subject to Québec legislation, or if the majority of benefits paid by the plan are paid to these employees, Method A must be used, because it best reflects the coverage provided under the plan to employees subject to Québec legislation.

Expenses incurred for the administration or management of the plan (variable D)

To calculate the value of an employee's coverage, you must take into account only the expenses incurred with respect to a third party. These expenses do not include consultation fees and other costs incurred to establish or amend a plan.

Stop-loss insurance (variable A or D)

Do not take into account the benefits paid under a stop-loss insurance contract (that is, a contract under which the insurer undertakes to cover losses beyond a certain amount for a given

period) when calculating the value of an employee's coverage under a group insurance plan.

However, you must include in variable D the premiums (and the related tax) you pay for the year under such a contract if the stop-loss insurance applies without distinction to all types of coverage and benefits provided under the plan. If the stop-loss insurance applies only to certain specific types of coverage or benefits, you must include this premium in the variable A that applies to the coverage or benefits in question.

5.1.3 Services insured by the RAMQ

5.1.3.1 Coverage backed by an insurance contract

If the coverage provided under a private health services plan is backed by an insurance contract with an insurance corporation, exclude the portion of the premium paid for an employee that can reasonably be attributed to coverage related to the cost that would be assumed by the Régie de l'assurance maladie du Québec (RAMQ) for services insured under the *Health Insurance Act*.

However, for a given period in the year, if an employee is not subject to the provisions of the *Health Insurance Act* (as in the case, for example, of an employee posted outside Canada) and if the plan provides the employee with coverage and benefits that comprise, at the least, all the services for which the employee would be covered under the *Health Insurance Act* if he or she were subject to it, subtract the prescribed amount from the premium paid for the employee and reduce the tax on the insurance premiums accordingly.

The prescribed amount is obtained by **multiplying** the number of days in the period concerned by \$2.74 (for an employee who has individual coverage) or by \$10.96 (in all other cases).

5.1.3.2 Coverage not backed by an insurance contract

If the coverage provided under a private health services plan is not backed by an insurance contract with an insurance corporation, exclude from variable A the amount of the benefits that can be considered to relate to the cost that would be assumed by the RAMQ for services insured under the *Health Insurance Act*.

However, if an employee is not subject to the *Health Insurance Act* for a given period in the year (as in the case, for example, of an employee posted outside Canada) and the plan provides the employee with coverage and benefits that comprise, at the least, all the services for which the employee would be covered under the *Health Insurance Act* if he or she were subject to it, subtract the prescribed amount respecting the coverage and benefits in question from the total amount of benefits (variable A), and reduce the tax on the insurance premiums accordingly.

The prescribed amount is obtained by **multiplying**, for each employee in the situation described in the preceding paragraph, the number of days the employee is in that situation and has the specific types of coverage and benefits by \$2.74 (for an employee who has individual coverage) or by \$10.96 (in all other cases).

Services insured according to the *Health Insurance Act*

The pharmaceutical services and prescription drugs that would be covered by the Québec Prescription Drug Insurance Plan if the employee had no coverage under a private insurance plan are insured under the *Act respecting prescription drug insurance*, not the *Health Insurance Act*. As such, do not exclude the portion of the premium that represents the coverage relative to the cost of these services and prescription drugs from the premium.

Example

A private health services plan provides individual coverage to an employee who works in another country and who is not subject to the provisions of the *Health Insurance Act*. The employer pays a premium of \$1,600 for the employee, for the year. The related tax on insurance premium is \$144 (9% of \$1,600). No portion of the cost is reimbursed to the employer by the employee.

The prescribed amount that reduces the premium is equal to \$2.74 multiplied by the number of days in the year that the employee has coverage comprising, at the least, all the services for which the employee would be covered under the *Health Insurance Act* if he or she were subject to it.

Reduction of the premium: \$1,000.10

Premium paid for the employee (variable A)	\$1,600.00
Prescribed amount (\$2.74 x 365 days)	– \$1,000.10
	= \$599.90

Reduction of the tax: \$90

Tax paid on the premium (9% x \$1,600.00)	\$144.00
Reduction of the tax (9% x \$1,000.10)	– \$90.00
	= \$54.00

Value of the benefit (\$599.90 + \$54.00) = \$653.90

1, 37.0.1.1 to 37.0.1.6, 37.0.1.2R1, 37.0.1.5R1

5.1.4 Paid-up life insurance

If coverage is provided for the year to a retired employee under a paid-up life insurance contract, the value of the taxable benefit corresponds to the portion of the single premium (and of the related tax) that can reasonably be attributed to the coverage and

benefits provided to the person for any period of the year. This portion of the single premium must be calculated on the basis of the number of years the person can reasonably be expected to have the coverage (hereinafter referred to as the “applicable period”).

If the paid-up life insurance contract covers the retired employee until he or she reaches a set age, the applicable period is generally the number of years between the time the coverage takes effect and the set age. This number must be used to calculate the portion of the single premium that constitutes a taxable benefit.

The same principle holds for a paid-up life insurance contract that covers a retired employee until his or her death. In this case, the applicable period is generally the number of years between the time the coverage takes effect and the person’s normal life expectancy. This number must be used to calculate the portion of the single premium that constitutes a taxable benefit.

5.2 Premiums paid to a non-group insurance plan

The premiums you pay for an employee under a non-group insurance plan constitute a taxable benefit. This holds for all non-group insurance plans, including health insurance, accident insurance, disability insurance, life insurance and wage loss replacement plans.

Note

Since the value of the taxable benefit must be distributed over all of the pay periods, the value of the coverage provided to an employee is necessarily based on estimates. Any reasonable estimation method may be used (for example, the estimates may be based on data for the previous year or on a hypothetical premium). At the end of the year, however, you must calculate the value of the benefit on the basis of the actual data.

37

5.3 Contributions to a multi-employer insurance plan

If you pay contributions to the administrator of a multi-employer insurance plan for a group insurance plan (other than insurance for total or partial loss of income from an office or employment), enter in boxes A and P of the employee’s RL-1 slip the portion of the contributions (and of the related tax) applicable to the work performed by the employee during the year.

Even though multi-employer insurance plans are group insurance plans, you must not enter an amount in boxes J and L of the employee's RL-1 slip. The administrator of the plan will file an RL-22 slip and include, in box A of the slip, the value of the benefit received by the employee with respect to the plans covered by boxes J and L of the RL-1 slip. The administrator must also enter, in box B of the RL-22 slip, the value of the employee's coverage under a private health services plan. This amount is already included in box A and may be considered an expense that gives entitlement to the tax credit for medical expenses. The amount in box B of the RL-22 slip is the same as the amount in box J of the RL-1 slip.

If you are the administrator of a multi-employer insurance plan, consult the *Guide to Filing the RL-22 Slip* (RL-22.G-V).

Multi-employer insurance plan

A plan providing for the insurance of persons which

- is applicable by operation of law, the regulations or a government order, to an economic sector, an industry, an activity, or a part of such a sector, industry or activity;
- is offered jointly by employers that belong to the same economic sector or industry, or that are engaged in the same activity; and
- is managed by a common administrator.

Note

Insurance plans applicable to employees in the construction industry are multi-employer insurance plans.

43.1 to 43.3, 78.6, 1086R1(i)

5.4 Top-up disability payments

If you make a top-up disability payment to one of your employees, the following rules apply:

- The payment is not considered a contribution made by you to or under the insurance plan of which the disability policy, for which the payment is made, is a part.
- If the payment is made to the employee, it is considered an amount received by the employee pursuant to the insurance plan referred to above.

A top-up disability payment received by an employee (or former employee) under a group disability insurance plan funded solely by employee contributions is not a taxable benefit.

Top-up disability payment

A payment made by an employer to replace, in whole or in part, periodic payments that an employee or former employee would have received under a group disability insurance contract covering the total or partial loss of income from an office or employment, had the insurer been solvent. The employer makes the payment

- to the **insolvent insurer** or to another insurer (thereby enabling the insurer to make the periodic payments to the employee or former employee); or
- to the **employee or former employee**, provided there is an arrangement requiring this individual to reimburse the employer if he or she recovers from the insolvent insurer or another insurer any of the periodic payments replaced by the employer.

43.0.1, 43.0.2

5.5 Contributions paid to a private health services plan for the benefit of the surviving spouse of a deceased employee

The value of the benefit related to the contributions you pay to a private health services plan covering the surviving spouse and the dependants of an employee after the employee's death is tax-exempt.

6 BOARD, LODGING, TRANSPORTATION AND MEALS

The table below indicates whether the board, lodging, transportation or meals provided to an employee constitute a taxable benefit and, if so, in which boxes of the RL-1 slip the benefit must be entered.

The number after each benefit refers to the section of this part that deals with the benefit.

Benefit provided by the employer	Taxable benefit	Corresponding boxes of the RL-1 slip
Board and lodging provided to an employee of a subcontractor (6.4)	Yes	Boxes A and V
Board and lodging provided to an employee working at a special work site or a remote location (6.8.1)	No, if the conditions are met	Boxes A and V, if the conditions are not met
Check-out allowance paid to an employee working at a special work site or a remote location (6.8.3)	Yes	Boxes A and L
Compensation allowance paid to an employee working at a special work site or a remote location (6.8.4)	Yes	Boxes A and L
Eligible paratransit pass provided or reimbursed to an employee (6.6)	No, in certain situations	Boxes A and L, if the benefit is taxable
Eligible transit pass provided or reimbursed to an employee (6.6)	No, in certain situations	Boxes A and L, if the benefit is taxable
Free or subsidized lodging (other than lodging provided to an employee working at a special work site or a remote location) (6.1)	Yes	Boxes A and V
Free or subsidized lodging provided to a member of the clergy or of a religious order (6.1)	Yes	Boxes A and V
Free or subsidized meals (6.2)	Yes	Boxes A and V
Intermunicipal public transportation (6.11)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Lodging provided to a restaurant or hotel employee (6.7)	Yes	Boxes A and V
Meals and transportation for an employee who works overtime (6.5)	No, if the conditions are met	Boxes A and V or boxes A and L (as applicable), if the conditions are not met
Meals provided to a restaurant or hotel employee (6.7)	Yes	Boxes A and V
Transportation from a meeting point to the workplace (6.3)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Transportation provided to an employee of a subcontractor (6.4)	Yes	Boxes A and L
Transportation provided to an employee working at a special work site or a remote location (6.8.2)	No, if the conditions are met	Boxes A and L, if the conditions are not met

6.1 Free or subsidized lodging

If you provide free or subsidized lodging to an employee, the value of the benefit corresponds to the cost of the lodging, including, where applicable, GST and QST, **minus** any amount paid by the employee. As a rule, the cost of the lodging is considered to be the FMV of the rent for the house or other lodging made available to an employee (that is, the amount the employee would have had to pay to rent from someone other than his or her employer).

In general, the supply of a room or other type of lodging occupied by the employee for at least one month is not subject to GST or QST.

Member of the clergy or of a religious order

If you provide free or subsidized lodging to a member of the clergy, a member of a religious order or a regular minister of a religious denomination, and this person is in charge of or ministers to a diocese, parish or congregation, you must enter the value of the benefit in boxes A and V of the person's RL-1 slip. This rule also applies if such a person is engaged exclusively in full-time administrative service by appointment of a religious order or religious denomination.

6.2 Free or subsidized meals

If you provide free or subsidized meals (such as meals in an employee dining room or cafeteria) to an employee, the value of the benefit corresponds to the result of the following calculation:

- the cost of the food (including GST and QST) and, where applicable, the cost of preparing and serving the food,

minus

- any amount paid by the employee.

If you pay compensation for meals and transportation to employees who work overtime, see section 6.5.

6.3 Transportation from a meeting point to the workplace

Transportation that you provide free of charge from a meeting point to the workplace is not considered a taxable benefit, provided the access roads are closed to public or private vehicles for safety or other reasons, or are otherwise impassable.

Compensation for travel expenses that is paid under collective agreements governed by the *Act respecting labour relations, vocational training and workforce management in the construction industry* (R.S.Q., c. R-20) to employees whose working conditions are governed by said Act does not constitute a taxable benefit.

Whether you provide transportation free of charge or pay travel expenses, if you do not meet all of the conditions, the value of the transportation benefit provided to the employee must be included in boxes A and L of the employee's RL-1 slip.

6.4 Board, lodging and transportation provided to an employee of a subcontractor

The value of the benefit (including GST and QST) provided in the form of board and lodging to an employee of a subcontractor by the general contractor or another subcontractor, **minus** the portion paid by the employee, must be entered in boxes A and V of the employee's RL-1 slip. Likewise, the value of the benefit provided to the employee in the form of transportation, **minus** the portion paid by the employee, must be entered in boxes A and L. However, such benefits are tax-exempt if they are provided to an employee working at a special work site or a remote location (see section 6.8).

Note

The person that provides the benefit must complete the RL-1 slip.

37

6.5 Meals and transportation for an employee who works overtime

If you provide a meal or reimburse meal expenses to an employee who works overtime, the employee does not receive a taxable benefit if the following conditions are met:

- The overtime is done at your request and is expected to last for at least three consecutive hours.
- Overtime is done rarely or on an occasional basis (fewer than three times a week).
- The meal expenses incurred by the employee are reimbursed (in whole or in part) upon presentation of receipts.
- The meal expenses reimbursed or the value of the meal provided (as the case may be) is reasonable.

If these conditions are not met, you must include the value of the meal benefit in boxes A and V of the employee's RL-1 slip.

Likewise, where provided to an employee who works overtime, transportation or an expense reimbursement for taxi transportation between the employee's home and usual workplace does not constitute a taxable benefit if the following conditions are met:

- The overtime is done at your request and is expected to last for at least three consecutive hours.
- Overtime is done rarely or on an occasional basis (fewer than three times a week).
- The taxi expenses incurred by the employee are reimbursed (in whole or in part) upon presentation of receipts.
- Public transit is not available, or it is reasonable to consider that, under the circumstances, the employee's safety would be jeopardized because of the time of day the trip is made.

If these conditions are not met, you must include the value of the transportation benefit in boxes A and L of the employee's RL-1 slip.

37.0.3

6.6 Public transit passes

An employee's public transit pass is not a taxable benefit in the following cases:

- The employee receives a total or partial **reimbursement**, upon presentation of supporting documents, for an eligible subscription-type transit pass or an eligible paratransit pass that the employee acquired with a view to using it to commute between his or her usual place of residence and the workplace.
- You purchase an eligible transit pass or an eligible paratransit pass that is provided to the employee primarily to commute between his or her usual place of residence and the workplace.

However, if you pay the employee an allowance to compensate for the cost of his or her transit pass, you must include the value of this benefit in boxes A and L of the employee's RL-1 slip.

Where an employee of a public transit company receives a free or discounted transit pass, or a full or partial reimbursement for such a pass, the pass is not considered a taxable benefit, provided it **is to be used only** by the employee. However, the FMV of the pass constitutes a taxable benefit for the employee if the pass is for a member of the employee's family.

Eligible transit pass

A transit pass that allows the use of a public transit service, other than a paratransit service, provided by a public entity authorized by law to organize such a service.

Eligible paratransit pass

A transit pass that allows the use of a paratransit service provided by a public entity authorized by law to organize such a service.

Subscription-type transit pass

A transit pass in the form of a subscription for a minimum period of one month.

Public entities authorized by law to organize a public transit service

Municipal bodies, intermunicipal transit bodies, the Agence métropolitaine de transport and the authorities contemplated in the *Act respecting public transit authorities*, namely, the transit authorities of Laval, Lévis, Longueuil, Montréal, Outaouais, Québec, Saguenay, Sherbrooke and Trois-Rivières.

6.7 Restaurant or hotel employee

The value of the benefit related to the **meals** provided to a restaurant or hotel employee is calculated as follows:

- the lowest price (including taxes) charged to customers for a meal (such as a daily special, a business meal, a table d'hôte meal, a buffet or a brunch), to a maximum of \$7.41 for 2013 and \$7.67 for 2014;

minus

- the total of the following amounts:
 - 20% of the above amount; and
 - the amount paid by the employee for the meal.

The value of the benefit related to the **lodging** provided to an employee is calculated as follows:

- the lowest weekly rate (including taxes) for a room rented to paying guests, to a maximum of \$47.50 for 2013 and \$48.25 for 2014;

minus

- the weekly rent paid by the employee for the room.

IMP. 37-1/R22

6.8 Employee working at a special work site or a remote location

6.8.1 Board and lodging

Any benefit you provide to an employee in cash (a reimbursement or an allowance not in excess of a reasonable amount) or otherwise for expenses incurred for his or her board and lodging because the employee's duties require the employee to be away from his or her principal place of residence or to be at a special work site or a remote location, for a period of **at least 36 hours**, the value of this benefit is tax-exempt where the board and lodging are provided:

- at a **special work site**, where the employee performs temporary duties, and the dwelling that is the employee's principal place of residence
 - is available throughout the period for occupancy by the employee and is not rented to another person, and
 - is far enough from the work site that the employee could not reasonably be expected to return home every day (see notes 1 and 2 below); or
- at a **location so remote** from any established community that the employee could not reasonably be expected to establish or maintain a dwelling there (see note 3 below).

If these conditions are not met, the value of the benefit provided to the employee is taxable and must be included in boxes A and V of the employee's RL-1 slip.

Note 1

As a rule, we consider that it is not reasonable for an employee to travel between his or her principal place of residence and the workplace if the distance between those two places by the most direct route normally taken is at least 80 kilometres.

However, if the distance is less than 80 kilometres, we may, after taking into account the following factors, still consider that it is not reasonable for the employee to make that trip:

- the condition of the road taken;
- the available means of transportation;
- the number of hours of work required of the employee;
- the time the employee would have for rest if he or she returned home every day;
- the employee's general state of physical and mental health;
- the time it takes to travel the distance, and the time of day the travel takes place.

Note 2

You must enter "V-1", followed by the amount of the tax-exempt benefit for board and lodging in a blank box on the RL-1 slip if

- you provide a benefit (including an allowance or reimbursement fixed by a government order, by a decision of the Conseil du trésor or by a collective agreement made pursuant to the *Act respecting labour relations, vocational training and workforce management in the construction industry*) to the employee for board and lodging at a special work site; and
- the work site is in a northern zone or an intermediate zone prescribed by regulation and is situated within a radius of 30 kilometres of an established community of at least 40,000 inhabitants.

Note 3

As a rule, the location is considered remote if, by the most direct route normally taken, it is 80 kilometres or more from the nearest established community of at least 1,000 inhabitants.

However, in determining whether the location is remote, we also consider such factors as

- the available means of transportation;
- the distance between the remote location and the nearest established community of at least 1,000 inhabitants; and
- the time required to travel the distance.

Temporary duties

Duties performed on a short-term or interim basis.

Note

As a rule, we consider that an employee's duties are temporary where they will not provide continuous employment for the employee for more than two years.

Dwelling

A house, an apartment or any other similar type of lodging where a person ordinarily eats and sleeps, and which is equipped with kitchen and bathroom facilities.

Note

A room in a boarding house or hotel is not a dwelling.

Established community

A group of dwellings located relatively close to one another where people reside on a permanent basis. An established community offers essential community services and housing facilities.

6.8.2 Transportation

The value of any benefit you provide to an employee in cash (a reimbursement or allowance not in excess of a reasonable amount) or otherwise for expenses incurred for his or her transportation is not a taxable benefit if the following conditions are met:

- The employee's duties require the employee to be away from his or her principal place of residence or at a **special work site** or a **remote location** for a period of **at least 36 hours**.
- The employee received a benefit in cash or otherwise during the period for his or her board and lodging.
- The employee is transported
 - between his or her principal place of residence and the **special work site**, or
 - between the **remote location** and a location in Canada or in the country in which he or she is employed.

If these conditions are not met, the value of the benefit is taxable and must thus be included in boxes A and L of the employee's RL-1 slip.

6.8.3 Check-out allowance

Under some employment contracts, an employee who leaves a **special work site** or a **remote location** for the weekend receives a check-out allowance. This allowance usually corresponds to the value of board and lodging during the employee's absence. Such an allowance must be included in the employee's income. You must therefore include it in boxes A and L of the employee's RL-1 slip.

6.8.4 Compensation allowance

Under some employment contracts, after a specified work period, an employee can leave the **special work site** or the **remote location** for a vacation. If the cost of the employee's round trip is paid entirely by the employer, the value of the benefit must not be included in the employee's income (see section 6.8.2).

However, if the employee elects to remain at the **special work site** or the **remote location** and be paid a compensation allowance for having elected to forgo his or her right to leave, the allowance must be included in boxes A and L of the employee's RL-1 slip.

42, IMP. 42-1/R2

6.9 Employee working outside Canada

If you are a specified employer and you have an employee who is resident in Québec but works outside Canada, and for whom an RL-17 slip must be filed, the value of any board and lodging benefit, and any transportation benefit you provide to the employee must be entered on the employee's RL-1 slip.

Note that the employee may be entitled to a deduction on his or her income tax return with respect to the allowance, salary or wages he or she receives while outside Canada.

Consult the *Guide to Filing the RL-17 Slip* (RL-17.G-V) to find out whether you are a specified employer and how to complete the RL-17 slip. Consult the *Guide to Filing the RL-1 Slip* (RL-1.G-V) for information on how to complete the RL-1 slip.

737.24 to 737.26, IMP. 737.25-1

6.10 Dwelling located in a designated remote area

To find out how to determine the value of the benefit related to a dwelling located in a designated remote area (that is, in an area prescribed by regulation), consult the version of interpretation bulletin IMP. 37-5 applicable to the year in question.

37, IMP. 37-5/R13

6.11 Intermunicipal public transportation

If you organize, alone or jointly with other employers, a public transportation service for employees who live outside the local municipal territory where the establishment they normally work at is located, the value of the benefit related to such a service is tax-exempt for the employees if the following conditions are met:

- The transportation service is provided at least five days a week, except during holidays or a slowdown in the business' activities.
- Employees are transported in a vehicle with a design capacity of at least 15 people (coach, minibus or van).
- Employees can get on and off the vehicle only at predetermined places.

7 TRAVEL EXPENSES

The table below indicates whether an allowance for travel expenses paid to an employee constitutes a taxable benefit and, if so, in which boxes of the RL-1 slip the benefit must be entered.

The number(s) after each benefit refer to the section(s) of this part that deal with the benefit.

Benefit provided by the employer	Taxable benefit	Corresponding boxes of the RL-1 slip
Allowance for travel expenses (7.4 and 7.5)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Allowance paid or amount reimbursed to a member of a board of directors or a committee member for travel expenses (7.2)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Allowance paid or amount reimbursed to a member of the council of an RCM or of the Kativik Regional Government for travel expenses (7.1)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Allowance paid or amount reimbursed to a part-time employee for personal travel expenses incurred by reason of his or her employment (7.3)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Travel expenses paid for an employee's spouse during a business trip (7.6)	Yes, unless the spouse is to assist in achieving the objectives of the trip	Boxes A and L
Trips made by a resident of a designated remote area (7.7)	Yes	Boxes A and K

7.1 Allowance paid or amount reimbursed to a member of the council of an RCM or of the Kativik Regional Government for travel expenses

An allowance paid, or an amount reimbursed, by an RCM or the Kativik Regional Government to a council member for personal travel expenses the member is required to incur by reason of his or her position is tax-exempt. Such expenses may include expenses incurred by the member to attend meetings of the council of the RCM or of the Kativik Regional Government, or to visit the organization's offices to prepare for a meeting, settle files or meet with members of the public.

However, if the allowance or reimbursement exceeds a reasonable amount, the excess portion is taxable and must be included in boxes A and L of the member's RL-1 slip.

39.4, IMP. 39.4-1

7.2 Allowance paid or amount reimbursed to a member of a board of directors or a committee member for travel expenses

An allowance paid, or an amount reimbursed, to a board or committee member elected or appointed by a corporation, association or other organization for travel expenses to enable the member to attend a board or committee meeting is not to be included in the member's income if the following conditions are met:

- The member is dealing at arm's length with the organization.
- The travel expenses are not incurred by the member for trips made in the performance of his or her duties.
- The meeting is held at a remote location at least 80 kilometres from the member's usual place of residence and,
 - in the case of a non-profit organization, in a place that can reasonably be regarded as connected to the territory within which the organization regularly carries on its activities, or
 - in the case of another type of organization, in a place that is within the local municipal territory or the metropolitan area where the head office or principal place of business of the organization is located.

If these conditions are met, but the **allowance or reimbursement exceeds a reasonable amount**, the excess portion is taxable and must be included in boxes A and L of the member's RL-1 slip. If the conditions are not met, the full amount of the allowance or reimbursement is taxable and must be included in boxes A and L of the RL-1 slip.

39.4.1

7.3 Allowance paid or amount reimbursed to a part-time employee for travel expenses

An allowance you pay, or an amount you reimburse, to a part-time employee (as opposed to a part-time office holder) for travel expenses other than expenses incurred in the performance of the duties of the employment (for example, expenses incurred to travel to and from the workplace) is not to be included in the employee's income if he or she is dealing at arm's length with you and the following conditions are met:

- **For a part-time teacher:** The place where the teacher has part-time employment is at least 80 kilometres from his or her usual place of residence.
- **For any other employee:** The employee has other employment (as opposed to holding an office) or carries on a business throughout the period he or she has part-time employment, and the place where the employee has part-time employment is at least 80 kilometres from his or her usual place of residence and from the principal place of his or her business or other employment.

If these conditions are met, but the **allowance or reimbursement exceeds a reasonable amount**, the excess portion is taxable and must be included in boxes A and L of the employee's RL-1 slip.

Note

As a rule, we consider that an employee has part-time employment if the amount of work he or she is required to do is less than that required of full-time employees performing equivalent duties for the same employer.

Individual who holds an office

An office is a position for which an individual is entitled to be remunerated. For example, an individual who is a member of the board of directors of a corporation holds an office, even if he or she performs no administrative duties. An individual who is an elected or appointed representative also holds an office.

39.5, IMP. 39.5-1/R1

7.4 Allowance for travel expenses (employees whose duties consist in selling goods or negotiating contracts)

Do not include on an employee's RL-1 slip any **reasonable** allowance (including any such allowance related to the use of a motor vehicle) that you pay the employee for travel expenses incurred during periods when the employee's duties consist in selling goods or negotiating contracts for you.

However, if the allowance is not reasonable, it is taxable and the full amount must be included in boxes A and L of the RL-1 slip.

40 (a), IMP. 40-1/R2 (except point 9)

7.5 Allowance for travel expenses (employees whose duties do not consist in selling goods or negotiating contracts)

Do not include on an employee's RL-1 slip any **reasonable** allowance that you pay the employee

- for the use of a motor vehicle, if the employee is required to travel in the course of his or her duties; or
- to cover travel expenses (other than those related to the use of a motor vehicle) incurred during trips outside the local municipal territory or metropolitan area where your establishment at which the employee normally works (or with which he or she is normally connected) is located.

However, if the allowance is not reasonable, it is taxable and the **full** amount must be included in boxes A and L of the RL-1 slip. This may be the case, for example, if the measurement of the employee's use of the vehicle for the purpose of determining the allowance is not based solely on the actual number of kilometres the vehicle is used by the employee in the performance of his or her duties.

In certain situations, the allowance for travel expenses (including the meal allowance) paid by the employer for an employee's travel within the local municipal territory or the metropolitan area may also be excluded from the employee's income. Such an allowance is paid to an employee required to travel to more effectively perform his or her duties in a work period. The allowance must primarily benefit the employer, must be reasonable and must not be combined with another type of remuneration.

This may be the situation for an employee of a hydro-electric company who installs and repairs power lines in a sector of the municipality that is more than one hour away from the office where he or she generally has lunch. Rather than having the employee drive back to the office during the lunch hour, and return to the work site, the employer pays a reasonable meal

allowance so that the employee can eat at a restaurant close to the work site. We consider that this arrangement mainly benefits the employer. In such a case, the allowance should not be included in the employee's salary.

40(b) and (c), IMP. 40-1/R2 (except point 9)

7.6 Travel expenses paid for an employee's spouse

An amount you pay or reimburse to an employee for the travel expenses of the employee's spouse constitutes a taxable benefit for the employee, unless the spouse makes the trip at your request and the main reason for the spouse's trip is to assist in achieving the objectives of the business trip. If you pay such expenses, you must include GST and QST in the value of the benefit.

7.7 Trips made by a resident of a designated remote area

If, during the year, you pay for trips made by an employee who works and resides in a designated remote area, you must include the total value of the benefit related to the trips (including GST and QST) in boxes A and K of the employee's RL-1 slip.

Moreover, in a blank box on the RL-1 slip, enter "K-1", followed by the amount that corresponds to trips made to obtain medical care.

The total cost of a trip made to obtain medical care is equal to the travel expenses incurred for the employee or a member of his or her household for a trip to obtain medical services not available in the locality where the employee is living. If the person requiring medical care has to be accompanied during the trip, the accompanying person's travel expenses should be included in the cost of the trip. The value of the benefit related to any trips made for medical care may be deducted in the calculation of the employee's income, regardless of the number of trips made during the year.

The total cost of trips made for reasons other than business or medical reasons (for example, trips made because of a death or an unfortunate event, or annual leave) must also be entered in boxes A and K. The value of this benefit may be deducted in the calculation of the employee's income, subject to a limit of two trips for each member of the household.

For more information, and for a list of the areas concerned, consult guide TP-350.1.G-V, *Deduction for Residents of Designated Remote Areas*.

7.7.1 Travel deduction for residents of designated remote areas

If an employee's remuneration for a pay period includes the value of a taxable benefit related to trips made by a resident of a designated remote area, you must subtract the employee's allowable travel deduction from his or her gross remuneration for the pay period. However, before subtracting the amount, make sure that the employee meets the conditions for claiming the deduction.

An employee may claim a travel deduction respecting a taxable benefit included in his or her gross remuneration if the following conditions are met:

- The employee has lived in a designated remote area for a period of at least six consecutive months that began or ended in the year.
- The trip was made by the employee or by a member of his or her household during the period of the year in which the employee lived and worked in the remote area.
- The employee worked in the remote area at the time the trip was made.
- You are not related to the employee.
- The trip was made so that the employee or a member of the employee's household could receive medical services not available in the place where he or she lives, or for another reason (in the latter case, there is a limit on the number of trips that may be claimed; see the note below).
- Neither the employee nor any member of the employee's household will claim, on his or her income tax return, another deduction or tax credit for medical expenses with respect to the taxable benefit.
- No form of financial assistance (other than this taxable benefit) was granted to the employee or a member of the employee's household for travel expenses. This condition does not apply if the financial assistance was included in the income of the employee or a member of the employee's household.

Note

The employee may be eligible for a deduction even if the trip in question was not made for medical reasons (that is, so that the employee or a member of the employee's household could receive medical services not available in the place where he or she lives). The employee may claim a deduction for the first or second trip made for non-medical reasons by the employee or a member of the employee's household, provided the above-mentioned conditions are met. Indeed, each member of the household (including the employee) may claim a deduction for two trips made, for example, because of death or other misfortune, or in the course of the employee's annual holidays.

Calculate the amount of the deduction, where applicable, and subtract it from the gross remuneration.

7.7.2 Calculating the amount to subtract from the employee's gross remuneration

Subtract the amount that the employee can claim as a deduction for a travel-related benefit. To calculate that amount, multiply the value of the taxable benefit by

- 50%, if the remote area is located in an intermediate zone (see guide TP-350.1.G-V);
- 100%, if the remote area is located in a northern zone (see guide TP-350.1.G-V).

However, the total of the amounts that you subtract for each trip during the year must not exceed the result of the following calculation:

- the lesser of
 - the cost of the trip (see guide TP-350.1.G-V), and
 - the employee's maximum allowable deduction for the trip (see "Column E: Additional limit" in section 4 of guide TP-350.1.G-V);
- multiplied by 50% or 100%, depending on whether the remote area is located in an intermediate zone or a northern zone.

Once you have calculated the amount of the deduction, subtract it from the gross remuneration.

Restriction

If you expect that the trip will not be made in the year in which the benefit was granted, do not subtract an amount for this trip in calculating the remuneration subject to source deductions of income tax.

For more information, see guide TP-350.1.G-V.

[350.1 to 350.6](#)

8 OTHER BENEFITS

The table below indicates whether the other benefits an employee may receive constitute taxable benefits and, if so, in which boxes of the RL-1 slip the benefits must be entered.

The number after each benefit refers to the section of this part that deals with the benefit.

Benefit provided by the employer	Taxable benefit	Corresponding boxes of the RL-1 slip
Amounts paid by the employer to an employee trust (8.9)	No	Box Q
Amounts paid by the employer under a salary deferral arrangement (8.9)	No	Not applicable
Cell phone user fees (8.16)	Yes, if the employer derives no benefit	Boxes A and L
Commissions on goods purchased by a salesperson (8.21)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Contributions made by the employer to a DPSP (8.9)	No	Not applicable
Contributions made by the employer to an RPP (8.9)	No	Not applicable
Contributions made by the employer under a retirement compensation arrangement (8.9)	No	D-1
Contributions made by the employer under a supplementary unemployment benefit plan (8.9)	No	Not applicable
Contributions made by the employer under an employee benefit plan (8.9)	No	Box Q
Counselling services (8.23)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Debt forgiveness (8.22)	Yes	Boxes A and L
Employee QPIP premiums paid by the employer (8.6)	Yes	Boxes A and L
Employee QPP contributions paid by the employer (8.6)	Yes	Boxes A and L
Expense allowance or benefit provided to a person with an impairment (8.2)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Expense allowance paid to a member of a municipal or school body (8.1)	Portion of the allowance that exceeds half of the salary	Boxes A and L
Financial compensation paid to an emergency services volunteer (8.4)	Portion of the compensation that is over \$1,100	Boxes A and L
Frequent-flyer program (8.20)	Yes, if the points are exchanged for personal use and the employer controls the number of points accumulated	Boxes A and L
Gifts (8.3)	Yes, with certain exceptions	Boxes A and L
Interest-free or low-interest debts (8.10)	Yes	<ul style="list-style-type: none"> • Boxes A and L, if the benefit is granted to an employee • Box O, if the benefit is granted to a shareholder

Benefit provided by the employer	Taxable benefit	Corresponding boxes of the RL-1 slip
Internet user fees (8.15)	Yes, if the employer derives no benefit	Boxes A and L
Location incentives (8.19)	Yes	Boxes A and L
Membership in a sports club (8.14)	Yes, if the employer derives little or no benefit from the membership	Boxes A and L
Medical expenses (8.27)	Yes	Boxes A and L
Merchandise discounts (8.21)	No, if the conditions are met	Boxes A and L, if the conditions are not met
Moving expenses (8.11)	Yes, except for certain payments made to the employee for the following reasons: <ul style="list-style-type: none"> • the employee is hired to work in a locality other than the one in which he or she resides • the employee is transferred to another locality • the employment ends 	Boxes A and L
Parking provided or reimbursed by the employer (8.25)	Yes, with certain exceptions	Boxes A and L
Professional membership dues paid by the employer (8.5)	Yes	Boxes A and L
Rewards (8.3)	Yes, with certain exceptions	Boxes A and L
RRSP contributions made by the employer (other than contributions withheld from the employee's remuneration) (8.8)	Yes	Boxes A and L
Scholarships or bursaries (8.13)	Yes, in certain situations	Boxes A and L, if the benefit is taxable
Scholarships or bursaries granted to a family member for post-secondary studies (8.13)	Yes	Box O, if the benefit is granted to the beneficiary
Security options (8.17)	Yes	Boxes A and L
Subsidized school services for children of employees who work in remote areas (8.24)	No, if no public school body provides education in the area	Boxes A and L, if a public school body provides education in the area
TFSA contributions made by the employer (8.7)	Yes	Boxes A and L
Tools (8.18)	Yes	Boxes A and L
Training expenses (8.12)	No, if the training benefits the employer	Boxes A and L, if the training does not benefit the employer
Tuition fees paid for a family member's post-secondary studies (8.13)	Yes	Box O, if the benefit is granted to the beneficiary
Tuition fees paid for personal-interest courses (8.13)	Yes	Boxes A and L
Tuition fees paid to enable an employee to acquire technical skills not related to the employer's business (8.13)	Yes	Boxes A and L

Benefit provided by the employer	Taxable benefit	Corresponding boxes of the RL-1 slip
Uniforms and special clothing (8.26)	No, if the conditions are met	Boxes A and L, if the conditions are not met
User fees for recreational facilities (8.14)	Yes, if the employer derives no benefit	Boxes A and L

8.1 Expense allowance paid to a member of a municipal or school body

An allowance paid to a person to cover expenses incurred in the course of his or her duties (other than an allowance for travel expenses that does not have to be included in the person's income) is **taxable** if the person is

- an elected member of a municipal council (for example, a mayor or a municipal councillor);
- a member of the council or executive committee of a metropolitan community, an RCM or a similar body created under a Québec statute;
- a member of a municipal utilities commission or corporation, or of a similar body responsible for administering such services; or
- a member of a public or separate school board, or of a similar body responsible for administering a school district.

The respective amounts a member of one of the above bodies is paid as salary and as an allowance for expenses incurred in the course of his or her duties are generally **determined by a law or regulation**. The law or regulation specifies what portion of the overall amount (allowance and salary) constitutes an allowance for expenses incurred in the course of his or her duties. **This portion is tax-exempt to a maximum of one-half of the amount paid to the member as salary in the year.**

Do not enter the tax-exempt portion of the expense allowance on the member's RL-1 slip. However, in a blank box, write "L-3", followed by the amount of the tax-exempt allowance for expenses incurred in the course of duties.

Where no law or regulation specifies what portion of the overall amount constitutes an allowance for expenses incurred in the course of duties, we consider that one-third of the overall amount (calculated without taking into account allowances that do not have to be included in the member's income) constitutes such an allowance and that the remaining two-thirds constitute salary.

However, if it is established that the allowance paid is less than one-third of the overall amount paid, only the allowance actually paid constitutes the allowance for expenses incurred in the course of duties. If no allowance is paid to a member, no portion of the member's remuneration may be considered paid as an allowance.

Example	Overall amount paid, including allowance	Salary or wages	Allowance for expenses in connection with the duties		Amount to be included in box A	Amount to be included in box L
			Paid	Tax-exempt		
Amount determined by a law or regulation	\$3,000	\$2,000	\$1,000	\$1,000	\$2,000	—
	\$3,000	\$1,800	\$1,200	\$900	\$2,100	\$300
Amount not determined by a law or regulation	\$3,000	\$2,200	\$800	\$800	\$2,200	—
	\$1,200	—	\$1,200	\$400	\$800	\$800

39.3, IMP. 39.3-1/R1

8.2 Expense allowance or benefit provided to a person with an impairment

A benefit or reasonable allowance paid to an employee who is entitled to an amount for a severe and prolonged impairment in mental or physical functions (line 376 of the income tax return) is tax-exempt if the expenses are incurred for:

- **transportation** between the employee's home and the workplace (including expenses for parking near the workplace), if the employee is blind or has a severe and prolonged mobility impairment that significantly restricts his or her ability to carry out a basic activity of daily living. The expenses incurred for the employee's transportation may include an allowance for the use of taxis or a paratransit service, or an allowance for parking that you provide or subsidize;
- the **services of an attendant** to help the employee carry out the duties of his or her office or employment, if the employee has a severe and prolonged impairment in mental or physical functions. The expenses incurred may include expenses for the services of a reader for a blind person, a sign-language interpreter for a deaf person, or an instructor for a person with a mental impairment.

42.0.1

8.3 Gifts and rewards

A gift or reward you give to an employee constitutes a taxable benefit that you must include in boxes A and L of the employee's RL-1 slip. In the case of a non-monetary gift or reward, you must include GST and QST in the value of the benefit.

The following benefits are tax-exempt and should not be included in boxes A and L:

- a **non-monetary gift** given by the employer to an employee for a special occasion (such as Christmas, a birthday, a wedding or similar occasion), **up to a value of \$500** (including taxes) per year; and
- a **non-monetary reward** given by the employer to an employee in recognition of certain accomplishments (such as reaching a certain number of years of service, meeting or exceeding safety requirements, or achieving similar objectives), **up to a value of \$500** (including taxes) per year.

The following benefits are **fully** taxable and their value should be included in boxes A and L of the RL-1 slip:

- gifts and rewards paid in cash, or easily convertible into cash; personal insurance premiums that you pay; and
- gifts and rewards for work performance.

Note that a gift certificate, gift coupon or gift card that must be used to purchase goods or services from a designated business or list of businesses is not considered to be easily convertible into cash.

For example, if you give an employee a gift worth \$100 for his or her birthday and another worth \$450 for Christmas, you must include \$50 $[(\$100 + \$450) - \$500]$ in boxes A and L of the employee's RL-1 slip. However, if they are cash gifts, the entire amount (\$550) must be included in boxes A and L.

The value of gifts and rewards given to employees is fully deductible in the calculation of the employer's income, provided the amount is reasonable under the circumstances. This includes gifts and rewards that qualify for the \$500 exemption.

If the reward (other than a reward in recognition of certain accomplishments) is an item that is personalized with the employee's name, a corporate logo or a message, the value of the benefit to be included in the employee's income may be reduced by an amount that is reasonable in the circumstances. If the reward is a plaque, trophy or other memento of nominal value for which there is no market, it is not considered a taxable benefit.

Sales and incentive bonuses, and other prizes (in cash or in kind) related to sales made in the course of employment or a business, also constitute a taxable benefit. If a portion of a prize or an incentive bonus is paid in kind, GST and QST must be included, where applicable, in the calculation of the benefit.

If an employee receives a gift or reward directly from a supplier or client, the supplier or client must file an RL-1 slip in the employee's name and include the value of the gift or reward in boxes A and L. The \$500 exemption cannot be applied to the amount.

For example, an automobile manufacturer that rewards a dealer directly, in cash or in kind, is not required to report the value of the reward on an RL-1 slip. If the dealer subsequently distributes the reward to his or her employees, the dealer must include the value of the employees' respective shares of the reward in boxes A and L of their RL-1 slips. However, if the manufacturer rewards one of the dealer's employees directly, the manufacturer must file an RL-1 slip in the employee's name, indicating the value of the reward in boxes A and L. The \$500 exemption cannot be applied to the reward.

37, 37.1.5

8.4 Financial compensation paid to an emergency services volunteer

For 2013, financial compensation that is not more than \$1,100 is tax-exempt if paid by a government, municipality or other public authority to a person who is

- a volunteer firefighter;
- a volunteer ambulance technician; or
- a volunteer assisting in the search and rescue of individuals, or in other emergency operations.

However, if the amounts paid (as an allowance or otherwise) and the value of the benefits provided to a volunteer during the year are more than \$1,100, the portion that is over \$1,100 is taxable and must be included in boxes A and L of the RL-1 slip. In a blank box on the slip, write "L-2", followed by the amount of tax-exempt financial compensation.

Exception

The \$1,100 exemption does not apply if, during the year, the volunteer works for the same organization that pays the financial compensation and he or she carries out duties that are similar or identical to those performed as a volunteer. For example, the exemption cannot be claimed by a volunteer firefighter who works for a municipality if he or she also has full- or part-time employment with the municipality as a firefighter (whether the employment is permanent or the person has temporary employment as a replacement for a firefighter).

Note

The amount of financial compensation not included in box A is indexed annually. For the amount of financial compensation for 2014, consult the 2014 *Guide for Employers* (TP-1015.G-V).

39.6

8.5 Professional membership dues

The professional membership dues you pay on behalf of an employee or reimburse to an employee constitute a taxable benefit for the employee. For example, if the professional membership dues of an employee who is the controller or vice-president of finance of your corporation are paid by you to a professional order of accountants or reimbursed to the employee, the employee receives a taxable benefit. The value of the benefit is equal to the amount you pay (including taxes), minus any amount reimbursed to you by the employee.

However, we may consider that such a payment or reimbursement is not a taxable benefit if the facts show that the payment or reimbursement is entirely or almost entirely for the employer's benefit. This may be the case where an employee is not hired to practise his or her profession and does not perform any act pertaining to the profession, but is obliged by the employer, simply for prestige, to maintain a professional status recognized by law. For example, if you hire a chartered accountant as a secretary and this person performs no act pertaining to his or her profession, your payment of the employee's professional membership dues does not constitute a taxable benefit for the employee.

37, IMP. 37-2/R2

8.6 Employee QPP contributions and QPIP premiums

Any employee Québec Pension Plan (QPP) contributions or employee Québec parental insurance plan (QPIP) premiums you pay must be included in boxes A and L of the employee's RL-1 slip.

8.7 TFSA contributions made by the employer

The contributions you make to a tax-free savings account (TFSA) on an employee's behalf, and the related administrative costs you pay, constitute a taxable benefit, provided the amounts are not withheld from the employee's remuneration. Therefore, you must include such amounts in boxes A and L of the employee's RL-1 slip.

37

8.8 RRSP contributions made by the employer

The contributions you make to an RRSP of which your employee or his or her spouse is the annuitant, and the related administrative costs you pay, constitute a taxable benefit, provided the amounts were not withheld from the employee's remuneration. Therefore, you must include such amounts in boxes A and L of the employee's RL-1 slip.

37

8.9 Contributions made and other amounts paid by employers to certain plans

Do not include in boxes A and L of an employee's RL-1 slip the value of **benefits** derived from contributions you make or amounts you pay in respect of the employee under

- a DPSP;
- a group insurance plan, to cover total or partial loss of income from an office or employment (if the wage loss benefits are payable periodically);
- an RPP;
- a retirement compensation arrangement (box D-1 of the RL-1 slip);
- a salary deferral arrangement;
- a supplementary unemployment benefit plan;
- an employee benefit plan (box Q of the RL-1 slip); or
- an employee trust (box Q of the RL-1 slip).

38

8.10 Interest-free or low-interest debts

A person receives a taxable benefit if, because of a past, present or future office or employment, or by reason of being a shareholder, the person contracts from you an interest-free debt or a debt bearing interest at a lower rate than that determined under section 4301 of the federal *Income Tax Regulations*.

1, 37.1, 119.1, 487.1 to 487.6, IMP. 487.1-1/R3

8.10.1 Employee

If an employee receives a loan, the value of the benefit is equal to the result of the following calculation:

the total of the following amounts

- (a) the interest on each debt, calculated at the rate prescribed for the period of the year during which the debt is outstanding; and
- (b) the interest paid or payable for the year on each debt by the employer (that is, by the person or partnership that employs or intends to employ the individual, or by a person that is not the debtor and that is related to the employer);

minus the total of the following amounts

- (c) the interest for the year paid on each debt by the employee, the employer or a third party within 30 days after the end of the year; and
- (d) any portion of the interest in (b) that is reimbursed to the employer by the employee within 30 days after the end of the year.

Note

All debts referred to in (a) and (b), other than an excluded loan described in section 8.10.4, that are contracted by reason of the individual's office or employment must be taken into account, regardless of whether the interest rate is lower than, equal to or higher than the prescribed rate.

If an individual contracts a **debt for the acquisition of investments**, the value of the resulting benefit may be deducted in the calculation of his or her income. In this case, enter "L-4" in a blank box on the RL-1 slip, followed by the amount of the benefit resulting from a debt contracted for the acquisition of investments.

Loan made to an employee who relocates

The above rules also apply to interest-free and low-interest debts contracted **after February 23, 1998**, by an employee who relocated in order to begin employment **after September 1998** at a new workplace, provided it is reasonable to conclude that, but for the employee's office or employment, the loan either would not have been made or would not have been made under the same terms.

In the case of an employee who began employment at a new workplace **before October 1998**, the above rules apply **unless** the employee moved to be at least 40 kilometres closer to that location.

8.10.2 Shareholder

If a shareholder who is not an employee receives a loan, the value of the benefit is equal to the result of the following calculation: the amount calculated in (a) in section 8.10.1, **minus** the amount calculated in (c) in the same section, provided all of the following conditions are met:

- The debt is contracted by a person other than a corporation resident in Canada, or by a partnership none of whose members is a corporation resident in Canada.
- This person or partnership is a shareholder of the corporation (or is connected to a shareholder of the corporation), a member of a partnership, or a beneficiary of a trust or member of a partnership that is a shareholder of the corporation.
- The debt is contracted because the person or partnership is a shareholder of the corporation or is connected to such a shareholder, or because the person or partnership is a beneficiary of a trust or member of a partnership that is a shareholder of the corporation.

The value of the shareholder's benefit must be included only in box O of the RL-1 slip.

If a shareholder who is an employee receives a loan that is made to the person because he or she is a shareholder, the value of the benefit must be calculated as for shareholders and included in box O only. However, if the loan is made to the person because he or she is an employee, the value of the benefit must be calculated as for employees and included in boxes A and L.

If a person who is connected to a shareholder receives a loan and does not contract the debt by reason of an office or employment, the value of the benefit must be calculated as for shareholders who are not employees, and must be included in box O of the person's RL-1 slip (rather than the shareholder's RL-1 slip).

8.10.3 Annual interest rates

The annual interest rates applicable to such debts for 2013 are as follows:

1st quarter	2nd quarter	3rd quarter	4th quarter
1%	1%	1%	2%

For the annual interest rates for 2014, consult the Canada Revenue Agency website at www.cra.gc.ca.

Example

An employee borrows \$75,000 from the employer on January 20, 2013. The employee reimburses \$500 in interest on the loan within 30 days after the end of the year. The value of the benefit is calculated as explained below.

Multiply the prescribed quarterly rate by the amount of the loan. Then multiply the result by the ratio between the number of days in the quarter that the amount is on loan and the number of days in the year:

$1\% \times \$75,000 \times 71/365 \text{ days} =$	\$145.89
$1\% \times \$75,000 \times 91/365 \text{ days} =$	\$186.99
$1\% \times \$75,000 \times 92/365 \text{ days} =$	\$189.04
$2\% \times \$75,000 \times 92/365 \text{ days} =$	\$378.08
Total	= \$900.00
Minus: Amount reimbursed by the employee	– \$500.00
Employee's taxable benefit	= \$400.00

8.10.4 Excluded loans

No benefit is to be calculated for a loan (or portion of a loan)

- that is included in the income of a person or partnership under Part I of the *Taxation Act*;
- on which the interest is paid or payable to the creditor only by the debtor, and for which the interest rate is equal to or higher than the rate that would have been agreed on, when the loan was contracted, by parties dealing with each other at arm's length,
 - if lending had been part of the creditor's normal activities, and
 - if neither party had contracted the loan because of an office or employment, or by reason of being a shareholder.

8.10.5 Home relocation loans and home purchase loans

If a home relocation loan or home purchase loan is made to an employee, the taxable benefit is calculated in the same way as for interest-free or low-interest loans and debts. However, the amount of interest calculated in (a) in section 8.10.1 must not be more than the interest the individual would have had to pay if interest had been calculated at the rate of 8%, in the case of a debt contracted before May 1, 1987, or, in all other cases, at the rate prescribed or set at the time the debt was contracted.

A loan made by a financial institution to one of its employees does not constitute a taxable benefit if the loan is made after December 31, 1993, under the Accent on Renovation Program, or after September 21, 1995, under the Renovate Program or the Revitalization of Old Neighbourhoods Program.

If the term of repayment of a home relocation loan or a home purchase loan is more than five years, the outstanding balance at the end of the five years is considered a new debt, in the form of a home purchase loan, contracted on the same day by the individual. The value of the benefit must therefore be calculated using the prescribed rate in effect on the day this new loan is contracted.

In the case of a home relocation loan only, the value of the taxable benefit may be deducted in the calculation of the employee's taxable income for a period of not more than 60 months after the day on which the loan is made. You must calculate the employee's deduction and write "L-5" in a blank box on the RL-1 slip, followed by the amount of the deduction for a home relocation loan.

Calculation of the deduction for a home relocation loan

The deduction for a home relocation loan is equal to the least of the following amounts:

- the interest for the year, calculated at the rate set for the period during which the loan is outstanding, **minus** the interest paid on the loan for the year, by the end of the 30-day period following the end of the year;
- the interest for the period concerned, calculated at the prescribed rate, as if the loan were for \$25,000;
- the value of any benefit deemed received by the employee during the year for any interest-free or low-interest loan or debt, calculated as described in section 8.10.1.

725.6

However, you must use a different method to calculate this deduction if the individual is

- a foreign specialist working at an international financial centre (IFC);
- a foreign researcher, foreign researcher on a post-doctoral internship or foreign expert working for a business carrying out research in Québec;
- a foreign professor working for a university in Québec;
- a foreign specialist working at a BDC;
- a foreign specialist working for a stock exchange business or a securities clearing-house business; or
- a foreign specialist working for a financial services corporation.

Contact us to find out how to calculate the deduction for any of the persons referred to above.

Home relocation loan

A loan made to an individual or the individual's spouse, where either person begins employment at a new workplace located elsewhere in Canada, provided the following conditions are met:

- The loan is designated by the individual as a home relocation loan.
- The loan is used to purchase a dwelling or a share of the capital stock of a housing cooperative, where the individual purchases such a share for the sole purpose of obtaining the right to live in a dwelling owned by the cooperative.
- The dwelling is occupied by the individual as his or her new residence and is at least 40 kilometres closer to the new workplace than the individual's former residence was.

Home purchase loan

The portion of a debt contracted by an individual for one of the following purposes:

- to purchase a dwelling or a share of the capital stock of a housing cooperative, where the individual purchases such a share for the sole purpose of obtaining the right to live in a dwelling owned by the cooperative. The dwelling must be occupied by
 - the individual by virtue of whose office or employment the debt is contracted, or a person related to the individual, or
 - a specified shareholder of the corporation by virtue of whose services the debt is contracted, or a person related to the shareholder;
- to repay a debt contracted to purchase such a dwelling or share;
- to repay a home purchase loan.

737.18(g), 737.18.13(g), 737.18.35(g), 737.22(e), 737.22.0.0.4(e), 737.22.0.0.8(e), 737.22.0.4(e), 737.22.0.8(e)

8.11 Moving expenses

Any payment related to the moving expenses of an employee, the employee's family and the employee's household effects constitutes a taxable benefit, **unless** the employee is transferred from one of your establishments to another, or accepts employment in a locality other than the one in which he or she resides. Also, certain expenses you pay to move an employee, the employee's family and the employee's household effects out of a remote area when the employment duties there have been completed do not constitute a taxable benefit.

The following payments you make for an employee's move are normally tax-exempt:

- a payment to cover moving expenses, where the employee is hired to work in a locality other than the one in which he or she resides, where the employee is transferred to another locality, where the employment ends and the employee is returning to his or her former workplace, or where the employee is beginning a new job in one of your other establishments;
- a reimbursement to cover the cost of reconnecting telephone and cable services, and of hooking up household appliances, provided these costs are reasonable in the circumstances;
- a reimbursement to cover the cost of modifications required to install drapes, blinds, carpets, and plumbing or electrical systems, provided the changes are needed to enable the employee to continue using his or her property in a new residence and the amounts are reasonable in the circumstances.

If you pay an allowance to cover expenses related to relocation, include on the employee's RL-1 slip only the portion of the allowance that exceeds an amount equivalent to the employee's salary or wages for two weeks. The amount of salary or wages to be taken into account is the employee's salary or wages on the day he or she begins the new assignment.

39, 348 to 350

8.11.1 Housing loss

If you pay an amount to an employee (or to a person related to the employee) as compensation for a loss sustained on the sale of the employee's former residence or for a decrease in the value of the residence (hereinafter referred to as a "housing loss"), the amount constitutes a taxable benefit.

The value of the taxable benefit that you must enter on the RL-1 slip is equal to

- **one-half** of the result of the following calculation: the **total amount paid** in the year and in a previous year for the housing loss, **minus** \$15,000,

minus

- the value of the benefit included in the taxpayer's income in a previous year with respect to the amount paid for the housing loss.

This calculation applies to amounts that you pay for only one residence for any given move.

At any given time, a housing loss is equal to the higher of

- the highest FMV of the residence within the six-month period ending at that time, and
- the adjusted cost base of the residence at that time;

minus the lesser of

- the FMV of the residence at that time, and
- the proceeds of disposition, if the residence is disposed of before December 31 of the following year.

Any amount you pay to an employee (including the value of any assistance you provide to the employee) for the acquisition, use or right of use of a residence is also taxable. For example, you may pay the employee an amount (or provide the employee assistance) so that he or she can pay or reimburse mortgage interest, property taxes, insurance or costs incurred to keep the former residence in good condition after the move, or so that he or she can pay higher mortgage interest or bridge financing required with respect to the new residence.

37.1.1 to 37.1.4

8.11.2 Loan made to an employee who relocates

An interest-free or low-interest loan made after February 23, 1998, to an employee who relocates constitutes a taxable benefit if it is reasonable to conclude that, but for the employee's office or employment, the loan either would not have been made or would not have been made under the same terms (see section 8.10.1).

8.12 Training expenses

Training expenses you pay or reimburse to an employee do not constitute a taxable benefit for the employee if it is reasonable to consider that the training significantly benefits you. This rule holds regardless of whether or not the training leads to a diploma or licence.

8.12.1 Training directly related to the employer's activities

Courses taken by an employee to maintain or upgrade skills directly related to your business activities are generally considered to benefit you if it is reasonable to believe that the employee will resume his or her employment for a substantial length of time after the end of the course. Tuition paid for courses leading to a diploma or a licence in a field related to the employee's present or future duties within your business, and other related expenses such as books, meals, travel expenses and accommodation, do not constitute a taxable benefit.

8.12.2 General training not directly related to the employer's activities

Fees you pay or reimburse to the employee for other business-related courses (such as language courses, first-aid courses, stress-management courses and employment-equity courses) are generally considered tax-exempt, even if the training is not directly related to your own business. As a rule, in-house training is not considered a taxable benefit.

38

8.13 Tuition fees, scholarships and bursaries

Tuition fees you pay or reimburse to an employee for personal-interest courses or courses taken by the employee to acquire skills that are unrelated to your business constitute a taxable benefit. For example, the fees you pay for an employee to take a cooking course for personal interest constitute a taxable benefit for the employee. If you pay such fees directly, you must include GST and QST in the value of the benefit.

An amount reimbursed to an employee for books and supplies required for training is taxable in the year in which the amount is reimbursed. You must include the reimbursement in boxes A and L of the employee's RL-1 slip.

Any amounts you pay in the form of a scholarship or bursary, or tuition fees you pay for the **post-secondary studies** of an employee's family member are considered a taxable benefit for the family member. The FMV of this benefit must be included in box O of the **family member's** RL-1 slip. If, after 2007, you already included a taxable benefit for tuition fees or for a scholarship or bursary in the employee's income with regard to financial assistance for post-secondary studies provided to a family member, you must file an amended RL-1 slip for that employee. Boxes A and L of the employee's RL-1 slip will be revised and a new slip must be filed for the family member.

For example, if the employer is a post-secondary educational institution that offers courses free of charge to a member of an employee's family, the institution must file an RL-1 slip on behalf of the member and include the FMV of this benefit in box O of the RL-1 slip.

However, any amounts you pay in the form of a scholarship or bursary, or tuition fees for the **primary or secondary studies** of an employee's family member are considered a taxable benefit for the employee. The FMV of this benefit must be included in boxes A and L of the **employee's** RL-1 slip.

37

8.14 User fees for recreational facilities

User fees that an employee would have had to pay for recreational facilities had the facilities not been provided by you free of charge or for a nominal fee do not constitute a taxable benefit if you derive some advantage for your business.

The same is true of any membership dues you pay on behalf of the employee for membership in a social club or sports club. However, where such membership serves a social purpose and is of little or no advantage for your business, the dues you pay constitute a taxable benefit for the employee and must be included in boxes A and L of the employee's RL-1 slip.

User fees for recreational facilities and membership dues paid to a social club or sports club are not considered a taxable benefit if they constitute a gift given to an employee for a special occasion or a reward given in recognition of certain accomplishments, where the value of all such gifts and rewards given to the employee in the year does not exceed **\$500** (including taxes). For more information on gifts and rewards, see section 8.3.

Moreover, if you provide meals and accommodation free of charge to an employee (for example, at a resort or a hunting or fishing lodge that you maintain), the value of this benefit (including GST and QST) must be included in boxes A and V of the employee's RL-1 slip.

134, IMP. 134-1/R1

8.15 Internet user fees

An allowance you pay to an employee for Internet access fees must be included in the employee's income. However, a reimbursement or payment of such fees does not constitute a taxable benefit if it is made primarily for your benefit and the employee's personal use does not result in additional fees.

If the reimbursement or payment of such fees is made primarily for the employee's benefit or if **the employee's personal Internet use results in additional fees**, the value of the employee's benefit, including the applicable taxes, must be included in boxes A and L of the employee's RL-1 slip.

37

8.16 Cell phone user fees

An allowance you pay to an employee for cell phone user fees must be included in the employee's income. However, a reimbursement or payment of such fees does not constitute a taxable benefit if it is made primarily for your benefit and the employee's personal use does not result in additional fees.

If the reimbursement or payment of such fees is made primarily for the employee's benefit or if **the employee's personal cell phone use results in additional fees**, the value of the employee's benefit, including the applicable taxes, must be included in boxes A and L of the employee's RL-1 slip.

37

8.17 Security options

If a corporation **grants** a security option that is a share of its stock option (including a share of a corporation not dealing at arm's length with the corporation) to an employee or to the employee of a corporation not dealing at arm's length with the corporation, and the corporation grants this option under an agreement that allows the employee to acquire such a security, there is no taxable benefit for the employee at the time the option is **granted**.

Similarly, if a mutual fund trust grants a security option that is a mutual fund unit (including a mutual fund unit of a mutual fund trust with which it is not dealing at arm's length) to an employee (or to the employee of a mutual fund trust with which it is not dealing at arm's length), and the trust grants this option under an agreement that allows the employee to acquire such a security, there is no taxable benefit for the employee at the time the option is **granted**.

As a rule, the employee receives a taxable benefit in the taxation year in which he or she **acquires** the security covered by the option, unless the security is a share of a CCPC (see section 8.17.1).

47.18 to 58.0.6, IMP. 50-1

Calculating a security option benefit

The value of the benefit received by the employee is equal to

- the FMV of the security at the time of acquisition or the value of the consideration received (in cash or in kind) at the time the employee transfers to you his or her rights, as applicable;

minus

- the the total of
 - the amount paid or payable by the employee to acquire the security, and
 - the amount paid by the employee for the option.

You must include the value of the benefit in boxes A and L of the RL-1 slip of the employee in the year **in which the employee sells or acquires** the security, as applicable. The corporation that provides the benefit is responsible for including the value of the benefit in boxes A and L of the RL-1 slip of the employee that it files for the year the employee receives the benefit.

You must also enter "L-6" in a blank box on the RL-1 slip, followed by the amount of the security option deduction, unless the value of the benefit is included in the income used to calculate the deduction granted to the following persons:

- a Québec sailor working for an eligible shipowner;
- a foreign specialist working at an IFC;
- a foreign researcher, foreign researcher on a post-doctoral internship or foreign expert working for a business carrying out research in Québec;

- a foreign professor working for a university in Québec;
- a foreign specialist working at a BDC;
- a foreign specialist working for a stock exchange business or a securities clearing-house business;
- a foreign specialist working for a financial services corporation;
- a foreign farm worker; or
- a worker holding a key position in a foreign production.

If your business is an IFC and you have an employee who is not a foreign specialist, contact us.

Sections 8.17.1 and 8.17.2 explain how to calculate the deduction.

47.18 to 58.0.6, IMP. 50-1

Special rules concerning listed shares or mutual fund units

A taxable benefit related to a security acquired by an employee after 2010 is subject to source deductions of income tax in the year the security is acquired as if it were remuneration paid as a gratuity (see section 12.4 of the *Guide for Employers* (TP-1015.G-V)). However, for the purposes of source deductions of income tax only, if the conditions giving entitlement to the security option deduction are met, the value of the benefit subject to a source deduction can be reduced by 25% of the value of the benefit (or by 50% of the value, if the benefit is deemed received for a stock option of a small or medium-sized business (SMB) engaged in innovative activities).

1015.0.3

Election made under the *Income Tax Act*

If an employee transfers his or her security option to you as consideration for a cash payment or a benefit in kind without acquiring any securities, the employee may claim the security option deduction provided that you elected, under subsection 110(1.1) of the federal *Income Tax Act*, that neither you nor any person with whom you are not dealing at arm's length will deduct the payment made to or on behalf of the employee. To make the election, enter "L-8" in a blank box on the RL-1 slip, followed by the amount of the payment. The amount reported in box L-8 may be different from the value of the taxable benefit you must include in boxes A and L of the employee's RL-1 slip.

725.2.0.2

Note

The election to defer the taxation of a security options benefit until the year of sale is no longer available with respect to options exercised after 4 p.m. Eastern Standard Time on March 4, 2010.

SMB engaged in innovative activities

A corporation is an SMB engaged in innovative activities for a given calendar year if, during the year,

- it carries on a business in Québec and has an establishment there;
- its assets (including those of any associated corporations), calculated on a worldwide basis, are less than \$50 million for its taxation year ending in the calendar year preceding the given calendar year or, where the corporation is in its first fiscal year, at the beginning of its first fiscal year;
- a refundable tax credit for scientific research and experimental development (R&D) is granted to the corporation for its taxation year ending in the given calendar year or for one of the three previous taxation years.

725.1.3 to 725.1.6

8.17.1 Deduction for CCPC stock options

An employee or former employee (hereinafter referred to as an “employee”) is deemed to receive a taxable benefit **in the year the employee sells or exchanges** a share he or she acquired under an option, provided the following conditions are met:

- Immediately after the agreement was reached, the employee was dealing at arm’s length with the corporations involved (that is, your corporation, the corporation that made the agreement and the corporation that sold or issued the share to the employee).
- Each of the corporations involved is a Canadian-controlled private corporation (CCPC), and the employee acquired the share after May 22, 1985 (unless it was acquired before January 1, 1987, under an agreement reached prior to April 24, 1985). If any of the corporations involved is not a CCPC, the following conditions must be met:
 - The share is covered by subparagraph 110(1)(d)(i.1) of the federal *Income Tax Act* at the time of sale or issue, as applicable.
 - The share was acquired between May 22, 1985, and May 3, 1991 (unless it was acquired before January 1, 1987, under an agreement reached prior to April 24, 1985).
 - The amount the employee paid to acquire the share is equal to or greater than the result of the following calculation: the FMV of the share at the time the agreement was reached, **minus** the amount the employee paid for the stock option.

In this case, the employee can claim a security option deduction if the following conditions are met:

- The employee sells or exchanges the share in the year.
- The employee held the share for at least two years (except where the employee died).
- The employee did not claim the deduction provided for in section 8.17.2.

The security option deduction corresponds to 25% of the value of the benefit deemed received in the year, or to 50%, if the benefit is deemed received for a stock option of an SMB engaged in innovative activities. You must enter “L-6” in a blank box on the RL-1 slip, followed by the amount of the security option deduction.

725.3

8.17.2 Deduction for stock options of a corporation, other than a CCPC, or options to purchase mutual fund units

A current or former employee (hereinafter referred to as an “employee”) is deemed to receive a taxable benefit **in the year he or she acquires** a security that is a listed share or a mutual fund unit. The employee can claim a security option deduction in his or her income tax return if the following conditions are met:

- The amount that the employee had to pay to acquire the security is equal to or greater than the result of the following calculation: the FMV of the security at the time the agreement was reached, **minus** the amount the employee paid for the right to acquire the security.
- Immediately after the agreement was reached, the employee was dealing at arm’s length with the qualifying persons involved (a corporation or a mutual fund trust).
- The security is a share covered by subparagraph 110(1)(d)(i.1) of the federal *Income Tax Act* at the time of sale or issue, as applicable, or would have been covered if the share had been sold or issued to the employee at the time he or she disposed of the rights provided for under the agreement.
- The security would have been a mutual fund unit at the time of sale or issue if the trust had not issued units that were different from that unit.
- The security would have been a mutual fund unit if it had been sold or issued to the employee at the time he or she disposed of the rights provided for under the agreement, and if the trust had not issued units that were different from that unit.

When calculating the amount an individual must pay to acquire a security, do not take into account currency fluctuations that occur between the time the agreement was reached and the time the security is acquired.

The security option deduction corresponds to 25% of the value of the benefit deemed received in the year, or to 50%, if the benefit is deemed received for a stock option of an SMB engaged in innovative activities for the calendar year in which the stock option is granted. You must enter “L-6” in a blank box on the RL-1 slip, followed by the amount of the security option deduction, unless a deduction is claimed elsewhere in the calculation of the person’s income.

725.2

8.17.3 Rights arising from security options that can no longer be exercised

An individual who ceases to be able to exercise his or her rights to acquire securities under an agreement, who is not considered by reason of the cessation to have transferred or disposed of the rights, and who has received an amount in exchange for the cessation of the rights, is deemed to have disposed of his or her rights at the time the amount was received and to have received the amount as consideration for the disposition. Consequently, the individual is deemed to have received a benefit equal to the amount received, minus the amount he or she paid to acquire the rights.

However, if on more than one occasion the individual received amounts for the cessation of his or her rights, all of the amounts that the individual received previously for the cessation must be subtracted from the amount that the individual is deemed to have paid to acquire the rights in question.

8.17.4 Rule applicable if the employee dies before exercising the security option

An employee who owned a security option immediately before his or her death is deemed to have received for the year of death a benefit equal to the result of the following calculation: the value of the option, immediately after the time of death, minus the amount the employee paid to acquire the option. In a blank box on the RL-1 slip, enter "L-7", followed by the amount. This amount corresponds to the value of the benefit that the deceased employee is deemed to have received for the security option.

8.17.5 Special cases

This brochure does not provide information pertaining to the tax treatment of

- exchanges, sales and transfers of security options;
- the sale or exchange of CCPC shares that an employee acquired before May 23, 1985, under an agreement reached after April 23, 1985;
- the sale or exchange of shares (acquired further to the exercise of a stock option) in the course of a reorganization or recapitalization of the corporation; or
- the replacement of a stock option plan.

For more information, contact us.

8.18 Tools

If you reimburse an employee for tools required in his or her work, the reimbursement is taxable for the year it is made. Include such reimbursements in boxes A and L of the employee's RL-1 slip.

8.19 Location incentives

A location incentive paid to a salaried health professional, such as a physician or pharmacist who practises in a particular area, is taxable and must be included in boxes A and L of the RL-1 slip.

8.20 Frequent-flyer program

Generally, we consider that an employee who merely accumulates frequent-flyer points as a result of taking business trips paid for by you has not received a taxable benefit.

However, if the employee accumulates such points and exchanges them in order to obtain, for his or her personal use, one of the benefits available under the program, he or she receives a taxable benefit.

If **you control** the number of points accumulated by the employee, you must calculate the value of the employee's taxable benefit. This value is equal to the FMV of all the benefits received by the employee under the program. In the case of an airline ticket, for example, the value of the benefit is equal to the FMV of the ticket (issued in the name of the employee or of a member of the employee's family). However, you must also take into account certain restrictions that may affect the FMV, such as whether the ticket is for first class, business class or economy class.

If **you do not control** the number of points accumulated by the employee, it is the employee who must determine the FMV of all such benefits he or she receives and include that amount in his or her income. The employee is not required to include in his or her income the FMV of the benefits he or she receives in exchange for frequent-flyer points unless

- the points are converted to cash;
- the plan or arrangement between you and the employee seems to be a form of additional remuneration; or
- the plan or arrangement is a form of tax avoidance.

Frequent-flyer program

A program sponsored by an airline which allows frequent air travellers to accumulate points that may subsequently be exchanged for additional air travel or other benefits.

8.21 Merchandise discounts and commissions on certain sales

If you sell merchandise to an employee at a reduced price, we do not, as a rule, consider this a taxable benefit, as long as the discount is reasonable under the circumstances. However, the employee receives a taxable benefit in the following situations:

- If merchandise that is neither outdated nor unfit for sale is purchased from you by the employee at below-cost prices.
- If you have made a special agreement with the employee or a selected group of employees, allowing for the purchase of merchandise at a discount.

An employee who receives a discount on merchandise from a person other than you is generally not considered to have received a taxable benefit, unless the discount is granted further to an arrangement between you and the vendor of the merchandise. For example, if the employer and the vendor of the merchandise have an arrangement whereby their respective employees are entitled to discounts at the other employer's business, such a discount constitutes a taxable benefit.

Where the benefit is taxable, its value is equal to the difference between the FMV of the merchandise (including GST and QST) and the price paid by the employee.

Commissions received by salespersons on goods purchased for their personal use do not constitute a taxable benefit. The same rule generally applies to commissions received by life insurance agents for life insurance policies they take out on themselves, provided the agents underwrite the policies and pay the premiums. However, commissions that life insurance agents receive further to acquiring an annuity contract or a segregated fund policy for investment purposes are taxable.

8.22 Debt forgiveness

The benefit an employee receives during the year because of the forgiveness of a debt (whether the debt is a loan or another type of debt) constitutes a taxable benefit. The value of the benefit corresponds to the **amount forgiven** when the debt is settled or extinguished. The **forgiven amount** is equal to

- the lesser of the following amounts:
 - the principal,
 - the amount for which the debt was contracted;

minus

- any amount paid on the principal of the debt, and
- any adjustments that reflect the extent to which the unpaid amount was otherwise taken into account for income tax purposes under the *Taxation Act*.

For a more complete definition of “forgiven amount,” refer to sections 37.0.1 and 485 of the *Taxation Act*.

37.0.1, 485

8.23 Counselling services

Counselling services you pay for or provide to an employee do not constitute a taxable benefit if they pertain to stress management or to problems caused by tobacco or drug use or alcohol abuse. However, the benefit must not be attributable to an amount expended or disbursed for an activity referred to in section 134 of the *Taxation Act*.

Re-employment counselling and retirement counselling are not considered a taxable benefit.

38

8.24 Subsidized school services

School services provided to an employee's children free of charge are not considered a taxable benefit if the employee works in a remote area where no public school body provides education. However, this does not apply in the case of tuition fees that would normally be paid by the employee.

8.25 Parking provided or reimbursed by the employer

As a rule, a parking space that you provide to an employee free of charge (or at a price below the FMV), or any reimbursement you make to the employee for the cost of a parking space, is considered a taxable benefit. The value of the benefit corresponds to the FMV of the parking space **minus** any amount you are reimbursed by the employee for its use.

However, the value of this benefit is sometimes difficult to quantify, as when the parking space is an integral part of your establishment (or of a shopping centre in which your business is located), or when there are not enough parking spaces for all employees and the spaces available are used on a first-come, first-served basis. As the value of the benefit received by an employee in such cases cannot be determined, the benefit is tax-exempt.

As a rule, a parking space that is provided to an employee mainly for your benefit is not considered a taxable benefit. This is usually the case where a parking space is provided to an employee for a motor vehicle that, under the employment contract, he or she must use on a regular basis in the performance of his or her duties. Consequently, the value of a parking space you provide

free of charge to an employee does not have to be included in the employee's income if, under the employment contract, most of the employee's duties are to be performed away from your establishment (to which the employee must nonetheless go from time to time to prepare reports, for example). The same is true in the case of an employee whose duties consist in transporting merchandise (on a daily basis) using a motor vehicle.

If the value of the benefit must be included in the employee's income, you must include GST and QST in calculating the benefit.

37, 41.4

8.26 Uniforms and special clothing

Generally speaking, the value of any clothing you provide to an employee that must be worn by the employee in the performance of his or her duties is not considered a taxable benefit. Thus, if you provide a distinctive uniform that must be worn by the employee in the performance of his or her duties, or special clothing or equipment designed to protect the employee from work hazards, there is no taxable benefit for the employee.

An allowance for the acquisition and care of clothing is also tax-exempt, provided

- the amount of the allowance does not exceed a reasonable amount; and
- the allowance is for the acquisition and care of distinctive clothing that the employee is required, under the employment contract, to wear in the performance of his or her duties.

We consider that the distinctive nature of the clothing must be determined on the basis of its intrinsic characteristics and not on the basis of the employee's usual attire. In other words, clothing is distinctive if it is not suitable to be worn elsewhere than at work. For example, the safety equipment worn by construction workers is distinctive. Consequently, an allowance for such equipment does not constitute a taxable benefit.

With respect to police officers, we are willing to take a more liberal view of what constitutes distinctive clothing. This applies, for example, in the case of a police officer who, as a plain-clothes investigator, is required to wear street clothes that meet the employer's requirements (a tailored suit, overcoat and jacket).

Reimbursements made to an employee for expenses related to the acquisition and care (for example, laundry or dry-cleaning costs) of distinctive clothing are tax-exempt, provided the employee submits the appropriate supporting documents and is required, under the employment contract, to wear such clothing in the performance of his or her duties.

39, IMP. 39-2/R1

8.27 Medical expenses

The amount of medical expenses that you pay or reimburse to an employee, other than under a private health insurance plan, constitutes a taxable benefit for the employee. Enter this amount in boxes A and L of the employee's RL-1 slip. The amount paid may give the employee entitlement to a tax credit for medical expenses in his or her income tax return.

37, 752.0.11.3

9 SOURCE DEDUCTIONS AND EMPLOYER CONTRIBUTIONS

9.1 General information

As a rule, taxable allowances and benefits are subject to source deductions and employer contributions. The following benefits are exceptions to that rule:

- a benefit provided to a shareholder who is not an employee;
- a benefit provided to a partner in the form of the standby charge for an automobile made available by the partnership to the partner (or to a person related to the partner);
- a benefit provided to an employee of a partner in the form of the standby charge for an automobile made available by the partnership to the employee (or to a person related to the employee).

Taxable benefit in cash

A **taxable benefit in cash** that you provide to an employee is considered salary or wages. If you provide a taxable benefit in cash to an employee during a pay period, add the value of the benefit to the employee's remuneration in order to calculate his or her salary or wages subject to source deductions and employer contributions.

Taxable benefit in kind

A **taxable benefit in kind** (that is, other than in cash) that you provide to an employee is also considered salary or wages. If you provide a taxable benefit in kind to an employee during a pay period, add the value of the benefit to the employee's remuneration in order to calculate the remuneration subject to source deductions of income tax, employee and employer QPP contributions, the employer contribution to the health services fund and the contribution to the financing of the Commission des normes du travail (CNT). The value of such a benefit must also be included in your **total payroll** used to determine your rate of contribution to the health services fund, and in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the Workforce Skills Development and Recognition Fund (WSDRF).

Most taxable benefits in kind are not subject to employee and employer **QPIP premiums**, the only exception being the benefit related to board and lodging provided to an employee for a pay period in which the employee receives cash remuneration. Certain non-taxable benefits are also subject to QPIP premiums.

As a rule, a taxable benefit in kind is not subject to source deductions of income tax and employee and employer **QPP contributions if you do not pay the employee any sum in cash or by cheque for the pay period in which the benefit is provided.** However, you must include the value of the benefit in calculating the employer contribution to the health services fund and the contribution to the financing of the CNT. You must also include the benefit in your **total payroll** used to determine your rate of contribution to the health services fund, and in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF.

In calculating the value of a benefit, you must take into account the GST and the QST that the employee would have paid had he or she purchased the property or service concerned. However, you are not required to add GST or QST to a taxable allowance or to any other taxable benefit in cash. For more information, see the brochure *General Information Concerning the QST and the GST/HST* (IN-203-V).

See notes 1 and 2 in section 9.2 for special rules concerning the QPP and the QPIP. See also the paragraph on exercising a security option for the rules concerning source deductions of income tax in the case of listed shares or mutual fund units.

9.2 Special cases

Benefit provided to shareholders

A taxable benefit provided to a shareholder of a corporation (or to a person related to the shareholder) is not subject to source deductions of income tax, employee and employer QPP contributions, employee and employer QPIP premiums, the employer contribution to the health services fund and the contribution to the financing of the CNT. The amount is also not to be included in your **total payroll** used to determine your rate of contribution to the health services fund, or in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF.

However, a benefit provided to a shareholder of a corporation (or to a person related to the shareholder) is taxable if the shareholder is also an employee of the corporation **and** receives the benefit as an employee rather than as a shareholder. In such a case, the benefit is subject to source deductions of income tax, employee and employer QPP contributions, employee and employer QPIP

premiums (unless the benefit is a benefit in kind), the employer contribution to the health services fund and the contribution to the financing of the CNT. You must also include the benefit in your **total payroll** used to determine your rate of contribution to the health services fund, and in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF.

See notes 1 and 2 below for special rules concerning the QPP and the QPIP.

Furthermore, according to the definitions of “employment” and “employee” in section 1.4 of the *Guide for Employers* (TP-1015.G-V), a shareholder of a corporation who is also a director of the corporation is both a shareholder and an employee of the corporation. If such a shareholder receives a benefit as a director (rather than as a shareholder), you must treat the benefit as if it were provided to an employee. If a benefit in kind is provided and the director does not receive salary or wages in cash or by cheque for the pay period in which the benefit is provided, the benefit is generally not subject to source deductions of income tax, employee and employer QPP contributions, and employee and employer QPIP premiums. However, you must include the benefit in calculating the employer contribution to the health services fund and the contribution to the financing of the CNT. You must also include the benefit in your **total payroll** used to determine your rate of contribution to the health services fund, and in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF.

Benefit provided to partners

A taxable benefit provided to a partner (or to a person related to the partner) is not subject to source deductions of income tax, employee and employer QPP contributions, employee and employer QPIP premiums, the employer contribution to the health services fund and the contribution to the financing of the CNT. You should also not include the benefit in your **total payroll** used to determine your rate of contribution to the health services fund, or in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF.

Standby charge and operating costs for an automobile

Since the value of the taxable benefit related to an automobile made available to an employee (or to a person related to the employee) must be calculated over the course of the year, it is necessarily based on estimates. You must therefore repeat the calculation at the end of the year, using the actual number of kilometres travelled during the taxation year.

Contributions paid to a private health services plan

Since the value of this taxable benefit must be distributed over all the pay periods, the amount representing an employee’s coverage is necessarily based on estimates. You may use any reasonable estimation method (for example, the estimates may be based on data for the previous year or on a hypothetical premium). However, you must repeat the calculation at the end of the year using the actual data.

RRSP contributions made by the employer (other than contributions withheld from the employee’s remuneration)

If, instead of withholding a registered retirement savings plan (RRSP) contribution from an employee’s remuneration, you remit the contribution directly to the issuer of an RRSP of which your employee or his or her spouse is the annuitant, the amount is considered a taxable benefit. You are not required to withhold income tax from such an amount if you remit the contribution directly to the RRSP issuer. The amount is subject to employee and employer QPP contributions, the employer contribution to the health services fund and the contribution to the financing of the CNT. The amount must also be included in your **total payroll** used to determine your rate of contribution to the health services fund, and in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF. However, the value of a benefit resulting from an amount you paid, on behalf of the employee, to acquire shares of a labour-sponsored fund is not subject to the contributions (see the last paragraph of section 9.2).

Furthermore, a contribution made by the employer to an employee’s **individual** RRSP is subject to employee and employer QPIP premiums. A contribution made by the employer to a **group** RRSP is not subject to employee and employer QPIP premiums if the employee is not permitted to withdraw amounts before his or her retirement or termination of employment, or if the employee is permitted to withdraw RRSP funds under the HBP or the LLP.

Contributions paid to a multi-employer insurance plan

Once the total contributions you pay to a multi-employer insurance plan in respect of an employee reach an amount corresponding to a reasonable estimate of the value of the taxable benefit the employee would receive if he or she were covered by the plan for the entire year, you are not required to continue withholding income tax respecting the contributions.

However, you must continue to withhold QPP contributions and to pay your employer contributions. Note that contributions paid to a multi-employer insurance plan are not subject to QPIP premiums.

Exercising a security option

General information

A benefit resulting from the exercise of a security option is subject to source deductions of income tax, employee and employer QPP contributions, the employer contribution to the health services fund and the contribution to the financing of the CNT, in the year in which the benefit is taxable for the employee. The benefit must also be included in your **total payroll** used to determine your rate of contribution to the health services fund, and in your total payroll used to determine your participation in workforce skills development and, where applicable, your contribution to the WSDRF. Generally, the year in which the benefit is taxable for the employee is the year of disposition in the case of a Canadian-controlled private corporation (CCPC) stock option, or the year of acquisition in other cases.

Special rules concerning listed shares or mutual fund units

A taxable benefit related to a security acquired by an employee after 2010 is subject to source deductions of income tax in the year the security is acquired as if it were remuneration paid as a gratuity (see section 12.4 of the *Guide for Employers* (TP-1015.G-V)). However, for the purposes of source deductions of income tax only, if the conditions giving entitlement to the security option deduction are met, the value of the benefit subject to a source deduction can be reduced by 25% of the value of the benefit (or by 50% of the value, if the benefit is deemed received for a stock option of a small or medium-sized business (SMB) engaged in innovative activities).

QPIP premiums

A benefit resulting from the exercise of a security option is a benefit in kind, and the value of the benefit is not subject to employee and employer QPIP premiums.

Note 1

Special rules concerning the QPP

The following benefits **are not subject** to QPP contributions:

- a taxable benefit (including an allowance) related to the residence or lodging provided to a member of the clergy, a member of a religious order or a regular minister of a religious denomination, where the person may, under the *Taxation Act*, deduct the value of this benefit in calculating his or her income;
- a taxable benefit provided to an employee whose employment is excepted employment for purposes of the QPP;
- a taxable benefit provided to an employee before or during the month in which the employee reaches age 18;
- a taxable benefit provided to an employee during or after the month following the month that includes the day (determined by the Régie des rentes du Québec) on which the employee became disabled.

Note 2

Special rules concerning the QPIP

As a rule, the following benefits **are subject** to employee and employer QPIP premiums:

- a taxable benefit related to contributions to an employee's **individual RRSP**;
- a benefit related to board or lodging provided to an employee for a pay period in which the employee receives cash remuneration;
- a non-taxable benefit related to a public transit pass or a paratransit pass for which you reimburse an amount to your employee (the value of this public transit pass or paratransit pass that you provide to your employee is not subject to QPIP premiums);
- a non-taxable benefit related to an allowance paid to a municipal councillor for expenses inherent to his or her duties;
- a non-taxable benefit related to an allowance for travel expenses paid to an employee in the construction sector, provided the benefit constitutes insurable earnings under the Employment Insurance plan;
- a non-taxable benefit related to an allowance paid to a member of a board of directors or a committee member for travel expenses;
- a non-taxable benefit related to an exempt amount of up to \$1,100 for 2013 paid to an emergency services volunteer, unless the volunteer participates in a rescue operation, is not regularly employed by you and is employed by you for fewer than seven days in the year;
- a non-taxable benefit related to an indemnity paid to a juror for meals, accommodation and transportation, as well as the allowance paid for the care of children or other dependants or for psychological treatment;
- a non-taxable benefit related to an allowance paid to a member of the council of an RCM or of the Kativik Regional Government for travel expenses.

As a rule, the following benefits **are not subject** to employee and employer QPIP premiums:

- a taxable benefit provided to an employee whose employment is excluded from the QPIP;
- a taxable benefit related to contributions made by the employer to a **group RRSP** if the employee is not permitted to withdraw amounts before his or her retirement or termination of employment, or if the employee is permitted to withdraw RRSP funds under the HBP or the LLP;
- a taxable benefit in kind (other than a benefit related to board and lodging provided to an employee for a pay period in which the employee receives cash remuneration).

**Benefit related to the acquisition of shares in a labour-sponsored fund**

The value of a benefit resulting from an amount paid by an employer to acquire, on behalf of an employee, a share or fraction of a share issued by the Fond de solidarité FTQ or by Fondation, le Fonds de développement de la Confédération des syndicats nationaux pour la coopération et l'emploi, after December 31, 2012, is no longer subject to QPP contributions, the contribution to the health services fund, the contribution to the financing of the CNT and the contribution to the WSDRF. In addition, the benefit is a benefit in kind that is not subject to QPIP premiums. You must include the value of this benefit in boxes A and L of the RL-1 slip.

Note that even if you are not required to withhold and remit QPP contributions, the benefit represents pensionable salary or wages for the employee. Consequently, you must enter "G-1" in a blank box of the RL-1 slip, followed by the amount of the benefit. An employee who has not reached the maximum QPP contribution for the year can make an optional QPP contribution on the amount when the employee files his or her income tax return.
