New Returns and Schedules

- As of **April 2010**, new standard returns and associated schedules will be available. The first of the new returns will be sent out in April and will include detailed information on how to complete them.
- The new standardized returns and associated schedules have addressed many of the administrative concerns that have been highlighted by the industry. By streamlining many of the existing processes for monthly reporting we have made it faster and easier for you to comply with the Ministry of Revenue's reporting requirements.

One Business Number (BN)

- Ontario has joined the federal government and other provinces in using the Business Number to securely identify a business and its associated tax accounts.
- One number enables easier access for Ontario businesses as the BN is the only number required to access information about your government accounts.
- An Ontario tax identifier will be added to the client's nine digit number for Ontario tax programs. This extension combines two letters to identify the province and the program and four numerals to indicate the number of accounts in each tax program.
