

Employment Tax

Workforce globalization and the constant evolution of payroll tax laws make it difficult for companies to fully understand the impact these laws have on their payroll tax positions and ultimately the company's bottom line. Ryan's Employment Tax practice helps Global 5000 corporations minimize business risk, while improving financial performance and operational effectiveness through a suite of federal, state, and local payroll tax recovery and compliance services.

Payroll Tax Recovery

Many companies, especially those that have undergone mergers, acquisitions, and corporate restructurings, have undiscovered employment tax refund opportunities that, left unaddressed, will expire because of statute of limitations issues. Our reviews are conducted with no disruption to the daily operations of the payroll staff, simply requiring copies of all Federal Form 940 returns for the previous three years via electronic mail. Based on this information, our team of professionals ascertains refund opportunities, presents a report detailing the potential refunds/savings opportunities based on the applicable state and federal laws, provides completed refund claims for review and signature, and follows up to ensure all applications are processed quickly and completely.

Employment Tax Compliance

Ryan's Employment Tax practice helps clients control employment tax liabilities through strategic planning and compliance services. Our seasoned tax professionals help clients manage complex compliance requirements, while improving the efficiency and effectiveness of their employment tax systems and processes. We ensure proper compliance with all federal, state, and local agencies to reduce overall employment tax liabilities and related costs.
